ILLINOIS CROP REPORT

FOR

May 1, 1912

SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE,
SPRINGFIELD, May 1, 1912.

The information contained in this report was obtained from the reports of correspondents mailed to this department the first day of May.

The correspondents are, as a rule, representative farmers of extended experience who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-five years, and their estimates for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred and are so distributed over the State as to fairly represent each locality.

The State covers an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

WINTER WHEAT.

Wheat was generally seeded late on account of the excessive rainfall last year and had not acquired sufficient growth and strength to successfully withstand the severe winter and of the 1,237,906 acres seeded last fall for harvest in 1912, it is estimated that 699,026 acres or 56 per cent has been winter-killed, leaving but 538,880 acres for harvest.

In northern Illinois the area destroyed was 84 per cent, in central Illinois 78 per cent, and in southern Illinois 32 per cent.

The condition of the growing crop on May 1 was 55 per cent of normal in northern Illinois, 43 per cent in central Illinois and 65 per cent in southern Illinois, a State average of 54 per cent, which is the lowest condition reported since 1899.

Chinchbugs are reported from Marion, Perry and Washington counties.

SPRING WHEAT.

A decrease of 15 per cent in the area seeded to spring wheat is reported this year and the May 1 condition is 92 per cent of normal.

376184

CROP REPORT.

OLD WHEAT.

Of the 22,722,316 bushels of wheat raised in Illinois last year it is estimated that there was on May 1, 1,877,638 bushels or about 8 per cent in the producers' hands.

Northern Illinois reports 8 per cent in first hands, central Illinois 6 per cent and southern Illinois 11 per cent.

The following table gives the amount of old wheat in first hands May 1, since and including 1880.

Year Produced.	Crop in bushels.	Per cent crop on hand following May 1.	Amount crop in producer's hands following May 1.	Surplus wheat above seed and consumption at harvest.	Deficit at harvest.

WINTER RYE.

There were 45,602 acres reported seeded to rye last fall and the May 1 report shows that 34 per cent of it has been winter-killed, leaving but 30,169 acres for harvest.

The May 1 condition of winter rye is 82 per cent of normal in northern and central Illinois and 77 per cent in the southern division of the State, a State condition of 80 per cent.

OATS.

There is a decrease of 12 per cent in the area seeded to oats for the 1912 crop, as compared with last year.

The May 1 condition of oats is 89 per cent of an average in northern Illinois, 79 per cent in central Illinois and 72 per cent in southern Illinois, a State average of 80 per cent.

BARLEY.

There is an increase of 1 per cent in the area devoted to barley in northern Illinois and its May 1 condition is 94 per cent of normal.

But very little barley is grown in the central and southern divisions of the State.

OLD CORN.

The Illinois corn crop of 1911, as reported to this Department was 248,953,114 bushels. Of this amount about 25 per cent or 61,783,574 bushels, was in the producers' hands on May 1.

McLean county reported the largest corn crop in 1911, that of 9,620,394 bushels.

The following table gives the amount of old corn in the producers' hands May 1, the past thirty-three years, as well as the extent of the crop produced each year:

Year Produced.	Crop.	Per cent corn on hand following May 1.	Bushels corn in producers' hands following May 1.
1879.....	305,913,277	32	99,229,889

1911.....	248,953,114	25	61,783,574
Average	235,192,092	30	70,773,069

MEADOWS.

The area devoted to meadows is 86 per cent as compared with last year. Meadows are not as far advanced as usual and their May 1 condition is 78 per cent of normal in northern Illinois, 88 per cent in central Illinois and 90 per cent in southern Illinois, a State condition of 85 per cent.

Much clover is reported winter-killed.

PASTURES.

There is a deficiency of 6 per cent in the area of pastures as compared with 1911.

The cool weather has retarded the growth of pastures and their May 1 condition is 86 per cent of normal.

SPRING PLOWING.

About two-thirds of the entire amount of spring work is usually completed by May 1, but owing to the late spring and frequent rains, only one-fourth of the work is reported as finished on May 1.

The condition of the soil throughout the State, with but few exceptions, is reported as wet and heavy on May 1.

CROP REPORT.

LIVE STOCK.

HORSES.

The number of horses reported May 1 is 97 per cent as compared with 1911, and their May 1 condition is 92 per cent of normal.

Distemper is reported from Grundy, Kane, Knox, Champaign, Douglas, Edgar, Macon, McDonough, Morgan, Moultrie, Sangamon and Randolph counties.

MULES.

There is a deficiency of 3 per cent in the number of mules in the State this year as compared with 1911, and their May 1 condition is 76 per cent of normal.

CATTLE.

The number of cattle reported this year is 87 per cent as compared with last year.

Their May 1 condition is reported as 91 per cent of normal in northern Illinois, 89 per cent in central Illinois and 84 per cent in the southern division of the State.

DAIRY COWS.

The number of dairy cows is reported as 94 per cent as compared with 1911, and their May 1 condition is 92 per cent of normal.

HOGS.

The number of hogs on hand May 1 is 76 per cent as compared with 1911, and their May 1 condition is 91 per cent of normal.

Hog cholera is reported from Mercer, Brown, Cass, Clark, DeWitt, Douglas, Edgar, Fulton, Hancock, Jersey, Macoupin, Pike, Schuyler, Effingham and Madison counties. A number of counties report quite a loss of spring pigs.

SHEEP.

The number of sheep reported is 92 per cent as compared with last year, and their May 1 condition as 94 per cent of normal.

FRUIT.

The prospect for fruit on May 1 was favorable with the exception of peaches, which crop is reported a failure throughout the State.

San Jose scale is reported from Franklin and Perry counties.

BEES.

Bees are reported as having suffered from the severe winter and many colonies have perished.

CROP REPORT.

7

WAGES PAID FARM HANDS.

There is a slight increase in the wages paid to farm hands, but the supply of help is reported not equal to the demand.

The average wages paid farm hands for the past thirty-three years is given in the following table:

Division.	Per Day.		Per Month.	
	With board.	Without board.	With board.	Without board.
Northern.....	\$1 10	\$1 40	\$21 85	\$29 85
Central.....	90	1 20	19 45	25 95
Southern.....	70	95	15 95	22 15
Average.....	\$0 90	\$1 20	\$19 10	\$26 00.

The wages paid farm help in the three divisions of the State, during the past thirty-three years, are given in the following tables:

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimate of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not intended that these reports will exactly coincide with the official assessor's returns, but they do represent the condition or yield of the various crops, etc., at the date given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON, Secretary.

ILLINOIS CROP REPORT

FOR

JUNE 20, 1912

SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

Illinois State Board of Agriculture
Springfield, June 20, 1912.

The information contained in this report was obtained from the reports of correspondents mailed to this office the twentieth of June.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-one years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

CORN.

An increase of 2 per cent is reported in the area devoted to corn, as compared with 1911.

The June 20 condition of corn is rather unfavorable, being but 80 per cent of normal, due to much inferior seed, late planting and unseasonable weather.

The condition of corn on June 20 in northern Illinois is 79 per cent of normal, in central Illinois 81 per cent, and in southern Illinois 82 per cent.

The quality of seed corn was but 74 per cent of an average.

The earliest appearance of corn above ground was April 1, which date was reported from Hamilton county, though most of it appeared between the 19th and 20th of May.

Cut, wire, grub worms, root lice, ants and chinch bugs have injured corn in many counties of the State.

BROOM CORN.

The area of broom corn is 86 per cent as compared with 1911 and the June 20 condition is 88 per cent of normal.

SORGHUM.

There is a decrease of 6 per cent in the area of sorghum this year.

In northern Illinois its June 20 condition is 87 per cent of normal, in central Illinois 89 per cent and in southern Illinois 81 per cent.

WINTER WHEAT.

The June 20 condition of winter wheat in northern Illinois was 40 per cent, in central Illinois 41 per cent and in southern Illinois 54 per cent, a State average of 45 per cent, a decrease of 9 points since the May 1 report.

Hessian fly is reported from Adams, Clinton, Franklin, Jefferson, Marion, Saline and Union counties. Chinch bugs are reported from Jersey, Clinton, Fayette, Jefferson, Marion, Perry, Randolph, Richland and Washington counties.

SPRING WHEAT.

There is a decrease of 9 per cent in the area of this crop in northern Illinois, where practically all the spring wheat is raised, and the June 20 condition is reported as 89 per cent of normal.

OATS.

The June 20 condition of oats is 93 per cent of normal in northern Illinois, 90 per cent in central Illinois and 80 per cent in the southern division, a State average of 88 per cent, which is 8 points better than the May 1 condition.

Smut is reported from Adams, Logan, Tazewell and Perry counties and rust from Morgan and Tazewell counties.

RYE.

The June 20 condition of rye is reported as 82 per cent of normal, being 85 per cent in northern and central Illinois and 77 per cent in the southern division of the State.

BARLEY.

The June 20 condition of barley in northern Illinois where most all of this crop is grown is 94 per cent of normal.

MEADOWS.

There is a decrease of 14 per cent in the area of meadows as compared with 1911.

The June 20 condition of meadows is 83 per cent of normal, being 77 per cent in northern Illinois, 89 per cent in central Illinois and 82 per cent in the southern division of the State.

CLOVER.

There is a decrease of 32 per cent in the area devoted to clover, as compared with 1911, much clover being winter-killed.

In northern Illinois the June 20 condition was 75 per cent of a seasonable average, in central Illinois 85 per cent and in southern Illinois 91 per cent, a State average of 84 per cent.

ALFALFA.

The June 20 condition of alfalfa is reported from fifty-seven counties in the State and is 83 per cent of a seasonable average, being 73 per cent in northern Illinois, 86 per cent in central Illinois and 91 per cent in the southern division of the State.

HUNGARIAN AND MILLET.

In northern Illinois the area of Hungarian and millet is 122 per cent as compared with 1911, in central Illinois 111 per cent and in southern Illinois 97 per cent.

PASTURES.

There is a deficiency of 6 per cent in the area of pastures as compared with 1911.

The weather has been favorable for the growth of pastures, their June condition being 92 per cent of normal.

IRISH POTATOES.

A decrease of 4 per cent in the area devoted to Irish potatoes, as compared with 1911, is reported.

Their June 20 condition is excellent, being 95 per cent of normal in northern Illinois, 97 per cent in central Illinois, and 94 per cent in the southern division of the State, a State average of 95 per cent.

SWEET POTATOES.

There is a decrease of 1 per cent in the area devoted to sweet potatoes this year and their June 20 condition is 96 per cent of normal.

FIELD BEANS.

The area of field beans is 100 per cent as compared with last year, and their June 20 condition is 94 per cent of a seasonable average.

COW PEAS.

The area of cow peas as compared with 1911 is 102 per cent in the northern and southern divisions of the State and 112 per cent in the central division.

TOBACCO.

No reports on area or condition of this crop were received from northern and central Illinois. The southern division reports the area 77 per cent as compared with 1911, and the June 20 condition as 91 per cent of normal.

FRUIT.

According to the reports of the correspondents made to this department June 20th apples promise a fair yield, but the peach crop is a total failure.

The condition of small fruit is reported good and the yield as follows:

CHERRIES.

In northern Illinois the yield is 45 per cent of a seasonable average, in central Illinois 68 per cent and in southern Illinois 92 per cent.

STRAWBERRIES.

The yield of strawberries was 93 per cent of normal, being 91 per cent in northern Illinois, 96 per cent in central Illinois and 92 per cent in the southern division of the State.

RASPBERRIES.

The yield of raspberries was 83 per cent of normal, being 91 per cent in northern Illinois, 80 per cent in central Illinois and 79 per cent in southern Illinois.

GOOSEBERRIES.

Northern Illinois reports the yield of gooseberries as 91 per cent, central Illinois 87 per cent and southern Illinois 92 per cent, a State average of 90 per cent.

CURRANTS.

The yield of currants is reported as 91 per cent in northern Illinois, 90 per cent in central Illinois and 85 per cent in southern Illinois, a State average of 89 per cent.

VINEYARDS.

The area of vineyards as compared with 1911 is 95 per cent in northern and southern Illinois and 97 per cent in the central division of the State.

The June 20 condition of vineyards is reported as 93 per cent. of normal.

YOUNG LIVE STOCK.

PIGS.

The number of pigs reported this year as compared with 1911 is 79 per cent and their June 20 condition is 91 per cent of normal.

LAMBS.

The number of lambs reported this year is 90 per cent as compared with 1911 and their June 20 condition is 97 per cent of normal.

CALVES.

The number of calves reported this year is 94 per cent as compared with last year and their June 20 condition is 99 per cent of normal.

COLTS.

The number of colts foaled this year, as compared with 1911, is 93 per cent and their June 20 condition is 97 per cent of normal in northern Illinois and 95 per cent in the central and southern divisions of the State.

The average value of colts at weaning time is reported as \$57 in northern Illinois \$58 in central Illinois and \$59 in southern Illinois.

The number of colts lost prior to weaning is reported as 11 per cent in northern Illinois, 12 per cent in central Illinois and 7 per cent in southern Illinois, a State average of 10 per cent.

The average cost of service of stallions in northern Illinois is reported as \$15, in central Illinois \$14, and in southern Illinois \$11.

WOOL.

The wool clip of 1912 was 95 per cent as compared with last year, being 97 per cent in the northern and central divisions and 92 per cent in the southern division of the State.

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON,
Secretary.

ILLINOIS CROP REPORT

FOR

AUGUST 1, 1912.

SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

Illinois State Board of Agriculture,
Springfield, August 1, 1912.

The information contained in this report was obtained from the reports of correspondents mailed to this office the first of August.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for many years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

WHEAT.

The area seeded to wheat for the crop of 1912 was 1,296,057 acres, all of which was winter wheat, with the exception of 58,151 acres.

Fifty-six per cent of the winter wheat area was winter-killed, leaving but 598,123 acres of wheat (spring and winter), for harvest, which is the smallest acreage ever recorded by this Department.

The average yield per acre was 10 bushels and the total yield amounted to 6,315,205 bushels.

The ruling price of wheat August 1 was 89 cents per bushel, and the value of the entire crop at this price amounted to \$5,656,269.

CROP REPORT.

The following table gives the area, yield and value of the wheat crop of the State during the past fifty-two years:

WHEAT (SPRING AND WINTER).

Year.	Number of acres harvested.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

WHEAT CONSUMPTION.

In estimating the amount of wheat required in the State for seed and bread, it is necessary to consider the entire area seeded instead of that harvested, as the amount required for seed is based on the area seeded last year, which was 1,296,057 acres. As one and one-third bushels per acre is used for seed, it will require 1,728,076 bushels to seed next year's crop.

Allowing four bushels per capita for food, it takes, according to the 1910 census, which gives Illinois 5,638,591 inhabitants, 22,554,364 bushels for that purpose, so that 24,282,438 bushels will be required for home use. As but 6,315,205 bushels were raised in the State this year, it will be necessary to import 17,967,233 bushels or equivalent in flour to fill the demand of the home market.

OATS.

The area seeded to oats for 1912 was reported as 2,698,929 acres. An immense crop of oats, of good quality is reported this year, the total yield being 117,245,081 bushels, the largest yield reported since 1905.

Northern Illinois reports the yield as 45 bushels per acre, central Illinois 44 bushels and southern Illinois 29 bushels, an average yield of 43 bushels.

The average price per bushel of oats on August 1 was 31 cents and the value of the crop at this price amounted to \$36,578,951.

The following table gives the area, yield and value of the oats crop of the State during the past fifty-two years:

Year.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

A table published elsewhere in this report gives the area, yield and value of the oats crop in each county in the State this year.

WINTER RYE.

There are 32,596 acres of rye reported this year. The average yield per acre was 18 bushels, and the total yield amounted to 597,934 bushels.

The average price on August 1 was 72 cents per bushel, and the total value of the crop amounted to \$431,421.

The following table gives the area, yield and value of the past fifty-two rye crops grown in the State.

Year.	Number of acres.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

A table published elsewhere in this report gives the area, yield and value of rye in each county in the State.

CROP REPORT.

BARLEY.

There are 37,794 acres of barley reported this year. The average yield was 31 bushels per acre, the total yield being 1,188,723 bushels.

The ruling price per bushel on August 1 was 64 cents and the value of the crop amounted to \$757,451.

The following table gives the area, yield and value of the last fifty-two barley crops produced in the State:

Year.	Number of acres harvested.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

In a table published elsewhere in this report will be found the area, yield and value of the barley crop in the State by counties.

CROP REPORT.

9

HAY.

The area devoted to meadows is reported as 1,651,940 acres.

The average yield per acre is 1½ tons, and the total yield amounted to 2,057,314 tons.

The total value of the crop amounted to \$28,830,089, an average price of \$14.00 per ton.

The August 1 condition of clover was 93 per cent of normal and the average yield for the State was 1½ tons per acre.

The following table gives the area, yield and value of the last fifty-two hay crops produced in this State:

Year.	Number of acres harvested.	Average yield per acre—tons.	Tons produced.	Price per ton.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860..	2,258,548	1.41	1,774,554	\$ 9 90	\$17,568,084	\$13 95	\$7 35	\$ 9,250,328	\$ 8,317,756

CROP REPORT.

CORN.

There is an increase of 215,094 acres reported in the area devoted to corn as compared with 1911, the total area being 6,839,673 acres.

Northern Illinois reports 2,915,311 acres, central Illinois 3,099,754 acres, and southern Illinois 824,608 acres.

The August 1 condition of corn in northern Illinois is 84 per cent, in central Illinois 79 per cent and in southern Illinois 77 per cent, a State average of 80 per cent, which is 7 points better than the August 1 condition of a year ago.

Corn is from two to three weeks late and it will require a late season to mature the crop.

Rain was needed in northern and central Illinois on August 1. Excessive rains in the southern division damaged corn and prevented cultivation.

Chinch bugs are reported from Christian, Jersey, Macoupin, Shelby, Clinton, Crawford, Fayette, Franklin, Hamilton, Jasper, Marion, Monroe, Randolph and St. Clair counties, and root lice from Christian, Macoupin, McLean, Morgan, Moultrie, Schuyler, Shelby and Wayne counties. Grub worms are reported from Kane, Stephenson and Winnebago counties.

BROOM CORN.

No report on the condition of this crop is received from the northern division of the State.

In central Illinois the condition on August 1 is reported as 81 per cent and in southern Illinois 75 per cent of normal.

SORGHUM.

The condition of sorghum on August 1 was 80 per cent of normal in the northern and southern divisions and 86 per cent in the central division of the State.

PASTURES.

There is a decrease of 229,750 acres in the area of pastures as compared with 1911, the total area being 3,589,662 acres.

Northern Illinois reports an area of 1,899,455 acres, central Illinois 1,131,606 acres and southern Illinois 558,601 acres.

The condition of pastures is 86 per cent of normal in northern and central Illinois and 96 per cent in southern Illinois, a State average of 89 per cent.

IRISH POTATOES.

The August 1 condition of Irish potatoes is reported as 93 per cent of normal in northern Illinois, 92 per cent in central Illinois and 96 per cent in the southern division of the State, a State average of 94 per cent.

SWEET POTATOES.

The condition of sweet potatoes on August 1 is 94 per cent of normal, being 95 per cent in northern Illinois, 92 per cent in central Illinois and 94 per cent in southern Illinois.

BUCKWHEAT.

A decrease of 3 per cent in the area of buckwheat, as compared with 1911, is reported.

The August 1 condition of buckwheat is 95 per cent of normal in northern Illinois, 86 per cent in central Illinois and 93 per cent in the southern division of the State.

TURNIPS AND OTHER ROOT CROPS.

The area of turnips and other root crops is 4 per cent less than in 1911, and their August 1 condition is 93 per cent of normal.

CASTOR BEANS.

Only two counties, Effingham and Hamilton, report on castor beans, where the August 1 condition is given as 100 per cent and 96 per cent respectively.

TOBACCO.

No report is received from the northern division of the State on the condition of this crop.

In the central division the condition is 97 per cent of normal and in southern Illinois the August 1 condition is 90 per cent of normal.

COW PEAS.

In northern Illinois the August 1 condition of cow peas is 92 per cent of normal, in central Illinois 83 per cent and in southern Illinois 85 per cent.

FIELD BEANS.

The August 1 condition of field beans was 93 per cent of normal in northern Illinois and 91 per cent in the central and southern divisions of the State.

FRUIT.

According to the reports of the correspondents made to this Department, apples promise a fair yield, but the peach crop was a total failure.

Plums, grapes and small fruit were plentiful.

APPLES.

The August 1 condition of apples in northern Illinois is 40 per cent of normal, in central Illinois 56 per cent and in southern Illinois 69 per cent.

PEACHES.

The condition of peaches, which is reported from but a few counties on August 1, is 22 per cent of normal in northern Illinois and 10 per cent in central and southern Illinois.

PEARS.

The August 1 condition of pears is 48 per cent of normal in northern Illinois, 59 per cent in central Illinois and 71 per cent in the southern division of the State.

PLUMS.

The condition of plums on August 1 was 70 per cent of normal in northern Illinois, 75 per cent in central Illinois and 79 per cent in southern Illinois.

GRAPES.

The condition of grapes on August 1 was 92 per cent of normal in northern Illinois, 93 per cent in central Illinois and 83 per cent in southern Illinois, a State average of 89 per cent.

BLACKBERRIES.

The blackberry crop this year was 81 per cent of an average yield in northern Illinois, 61 per cent in central Illinois and 48 per cent in southern Illinois.

QUINCES.

But few counties report on the condition of quinces. Their condition on August 1 was 80 per cent of normal in northern Illinois, 63 per cent in central Illinois and 71 per cent in the southern division of the State.

LIVE STOCK.

According to the reports of our correspondents, live stock is in a healthy condition with the exception of a few cases of distemper and pinkeye.

Hog cholera is reported from Bureau, Henry, Mercer, Peoria, Adams, Clark, Hancock, Pike, Scott, Clinton, Johnson, White and Williamson.

DRAIN TILE.

So far as can be ascertained there are now 748,963,267 feet of drain tile in the State, which gives an average of 29 feet to each acre of cultivated land in Illinois.

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting conditions, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON,
Secretary.

NOTE.

The county clerks of the following counties, viz.: DuPage, Iroquois, Kankakee, Lee, and Whiteside, furnished the tabulated schedules of agricultural statistics of their counties in accordance with the law, and computations for those counties are based on their reports.

ILLINOIS CROP REPORT

FOR

DECEMBER 1, 1912.

SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE,
SPRINGFIELD, December, 1, 1912.

The information contained in this report as to the acreage of crops and number of head of live stock was obtained from the reports of assessors made to this Department as required by law.

The data in regard to yield per acre, price of crops and value of crops and live stock was obtained from crop correspondents, who number three hundred and fifty, and represent every section of the State.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-five years, and their estimates, for a term of years, when compared with subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

WINTER GRAIN.

WHEAT.

A decrease of 14 per cent in the area seeded to wheat for the 1913 crop is reported.

Northern Illinois reports 37,045 acres, central Illinois 452,080 acres, and southern Illinois 518,305 acres, a total area of 1,007,430 acres.

The December 1 condition of the growing crop is excellent, being 94 per cent of normal in northern Illinois, 96 per cent in central Illinois, and 97 per cent in southern Illinois, a State average of 96 per cent.

RYE.

The area seeded to rye is reported as 35,700 acres, a decrease of 2 per cent as compared with last year.

Northern Illinois reports 29,793 acres, central Illinois 4,244 acres, and southern Illinois 1,663 acres.

The condition of this crop December 1 was 95 per cent of a seasonable average, being 96 per cent in northern Illinois, 97 per cent in central Illinois, and 93 per cent in the southern division of the State.

CORN.

The area of the corn crop of 1912 was reported as 6,878,797 acres, an increase of 255,218 acres, as compared with the area of 1911.

Northern Illinois reported 2,954,435 acres, central Illinois 3,099,754 acres, and southern Illinois 824,608 acres.

The average yield per acre was 43 bushels in northern Illinois, 39 bushels in central Illinois, and 29 bushels in southern Illinois, a State average of 39 bushels. The total corn crop amounted to 270,806,079 bushels.

The ruling price of corn December 1 was 40 cents per bushel, and the total value of the crop amounted to \$108,827,882.

The quality of the grain was reported as 96 per cent of normal, being 95 per cent in northern Illinois, 96 per cent in central Illinois, and 97 per cent in the southern division of the State.

Chinch bugs, root lice and grub worms were in evidence and reports of the damage wrought by them were received from nearly every county of the State.

CROP REPORT.

5

The area, yield and value of the corn crop of the State for the past fifty-three years is given in the following table:

Year.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel—cents.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860..	3,839,159	30	115,174,770	42½	\$ 48,944,277	\$12 74	\$10 50	\$40,311,169	\$ 8,633,108

CROP REPORT.

BROOM-CORN.

The area devoted to broom-corn is reported as 11,016 acres.

The total yield amounted to 5,578,000 pounds, the average yield per acre being 500 pounds.

The ruling price December 1 was \$98 per ton and the total value of the crop amounted to \$272,595.

The following table gives the area, yield and value of the broom-corn crop of Illinois since 1876:

Year.	Acreage.	Av. yield per acre— pounds.	Total yield— pounds.	Price per ton.	Value of crop.

BUCKWHEAT.

An increase of several hundred acres is noted in the area of buckwheat, 1,704 acres being reported.

The average yield per acre was 19 bushels and the total yield 32,614 bushels.

The ruling price December 1 was 85 cents, the total value of the crop amounting to \$28,119.

The following table gives the area, yield and value of the buckwheat crop in this State for the past thirty-six years:

Year.	Acreage.	Av. yield. per acre— bushels.	Total number of bushels.	Price per bushel.	Value of crop.

TIMOTHY SEED.

There were 72,442 bushels of timothy seed reported produced in 1912.

The average price per bushel was \$1.95, and the total value of the crop at this price amounted to \$142,050.

The following table gives the amount and value of the crop in this State since and including 1877.

Year.	Bushels pro- duced.	Price. per bushel.	Value of crop.
1877.....	483,571	\$1 25	\$ 604,464

CROP REPORT.

CLOVER SEED.

The amount of clover seed produced in 1912 was reported as 36,916 bushels.

The average price per bushel was \$9.30 and the total value of the crop amounted to \$342,912.

In the following table will be found the yield and value of the crop of clover seed for 1912, as compared with the thirty-five years preceding:

Year.	Bushels pro- duced.	Price per bushel.	Value of crop.
1877.....	64,686	\$ 4 80	\$310,493
1878.....	77,388	4 05	313,421

CROP REPORT.

11

HUNGARIAN AND MILLET SEED.

There were 23,915 bushels of Hungarian and millet seed produced in 1912.

The average price was 60 cents per bushel, making the total value of the crop \$14,792.

The following table gives the yield and value of this crop since 1876:

Year.	Bushels pro- duced.	Price. per bushel.	Value of crop.
1877.....	17,463	\$0. 65	\$10,701

ALFALFA.

The area of this crop is reported by our correspondents as about 2,000 acres in northern Illinois, 3,000 in central Illinois and 2,000 in southern Illinois.

The price is reported as \$15 per ton in northern Illinois and \$14 in both the central and southern divisions of the State.

BEANS.

There were 928 acres reported devoted to beans in 1912. The average yield per acre was 12 bushels and the total yield amounted to 11,261 bushels.

The ruling price December 1 was \$2.85 per bushel, and at this price the value of the crop amounted to \$31,885.

The following table gives the area, yield and value of the 1912 crop of beans, together with those of thirty-five years preceding:

Year.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	1,545	13	19,955	\$1 50	\$29,916

PASTURES.

The area devoted to pastures in 1912 is reported as 3,593,523 acres.

The average value per acre for the season of 1912 was \$4.95 and the total value amounted to \$17,750,786.

The following table gives the area and value of pastures for thirty-six years past:

Year.	Acreage.	Value per acre.	Value of crop.

IRISH POTATOES.

The area devoted to Irish potatoes in 1912 was reported as 71,972 acres.

The average yield per acre was 100 bushels and the total yield amounted to 7,176,957 bushels.

The average price per bushel December 1 was 60 cents and the total value of the crop amounted to \$4,364,428.

The following table gives the area, yield and value of the Irish potato crops of the State since 1859:

Year.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

SWEET POTATOES.

The area devoted to sweet potatoes in 1912 was reported as 1,903 acres. The total yield amounted to 171,348 bushels, an average of 90 bushels per acre.

The average price was 90 cents per bushel and the total value of the crop at this price amounted to \$158,267.

The following table gives the area, yield and value of the sweet potato crop of the State for the past thirty-six years:

Year.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	2,355	63	148,270	\$0 85	\$126,092

TURNIPS AND OTHER ROOT CROPS.

A decrease of 4 per cent is reported in the area of turnips and other root crops, 315 acres being reported.

The average value per acre is \$701.83, and the total value \$221,078.

The average yield of turnips per acre was 116 bushels.

The following table gives the acreage and value of turnips and other root crops grown in the State during the past thirty-six years:

Year.	Acreage.	Value per acre.	Value of crop.

FRUIT.

APPLES.

Northern Illinois reports the yield of apples 48 per cent as compared with 1911, central Illinois 57 per cent and southern Illinois 118 per cent.

The average price of apples per bushel was 85 cents.

PEACHES.

There were practically no peaches produced in Illinois in 1912, the yield being but 28 per cent as compared with 1911.

The average price of peaches was reported as \$1.20 per bushel.

PEARS.

Northern Illinois reports the yield of pears as 66 per cent of normal in northern Illinois, 84 per cent in central Illinois and 107 per cent in the southern division of the State.

The average price obtained for pears was reported as 95 cents per bushel.

GRAPES.

There were 806,376 pounds of grapes produced in 1912. Of this amount 581,901 pounds were reported from the southern division of the State.

The average price of 2 cents per pound gives a total value of \$17,393.

The following table gives particulars concerning the grape crop of the State for the past thirty-six years:

Year.	Pounds pro- duced.	Price per pound.	Value of crop.

CROP REPORT.

WINE.

The area in vineyards this year was reported 4 per cent less than in 1911, or 708 acres.

There were 6,250 gallons of wine reported produced, being an average yield of 9 gallons.

The average price per gallon was 75 cents, and the total value amounted to \$4,743.

The following table gives the number of gallons of wine and the value thereof during the past thirty-six years:

Year.	Acreage.	Av. yield per acre— gallons.	Number of gallons. produced.	Price per gallon.	Value of crop.
1877	2,612	61	158,944	\$1 20	\$191,933
1878	5,178	27	142,964	1 20	171,557

CROP REPORT.

STRAWBERRIES.

The value of the strawberry crop for 1912 was reported as \$67,646, of which \$27,035 was reported from the northern division, \$8,224 from the central division and \$32,387 from the southern division of the State.

WATERMELONS.

The value of watermelons sold in 1912 in northern Illinois is reported as \$29,398, in central Illinois \$7,436, in southern Illinois \$9,778, a total value of \$46,612.

OTHER CROPS NOT NAMED.

There are a number of crops raised in this State which are cultivated only in limited localities, and are not of sufficient importance to be tabulated alone, but are of considerable value to producers.

The value of these miscellaneous crops for 1912 was reported as \$119,383.

BEES AND HONEY.

There were 244,829 pounds of honey produced in 1912.

The average price obtained was 17 cents per pound, making the total value \$41,744.

The total number of hives of bees reported for 1912 was 80,693.

The following table gives the amount and value of honey produced in this State during the past twenty-two years, together with the number of hives of bees:

Year.	Pounds produced.	Price per pound.	Value of product.	Number of hives of bees.
1891.....	821,678	\$0 14	\$112,934	120,252

LIVE STOCK.

HOGS.

According to the assessors' returns, there were 1,146,300 hogs in the State May 1, 1912.

At the equalized value of \$2.31 per head, they were worth \$2,647,953.

The number marketed was 951,425, or 83 per cent of the whole number.

The average weight of those marketed was 216 pounds, giving a total gross weight of 205,442,683 pounds. The average price per cwt. of hogs marketed was \$7.30, their value at this rate being \$15,005,254.

The supply of hogs on hand December 1 was 85 per cent and the average price per cwt. on that date \$7.15.

Hog cholera was reported from seventy counties of the State.

CROP REPORT.

23

The following table gives the number of hogs assessed and marketed in 1912, as well as their weight and value, for the past fifty-seven years:

Year.	Assessors' Returns.		Estimated per cent marketed.	hogs fat marketed.	weight Av. gross per head.	Total gross weight.	Value per 100 lbs. gross.	hogs Total value marketed.

BEEF CATTLE.

The number of cattle in the State May 1, 1912, according to assessors' returns was 1,258,293. At the equalized value of \$8.28 per head, they were worth \$10,418,666.

Twenty-three per cent of the whole, 289,405, were marketed during the year.

The average weight was 1,013 pounds, making the total weight 310,050,754 pounds.

The average price of those sold prior to December 1 was \$6.70 per cwt., a total value of \$20,806,811.

The supply of beef cattle on hand December 1, 1912, was 83 per cent., and the average price per cwt. on that date \$6.45.

The following table gives the number, weight and value of the cattle marketed in the State since 1855:

Year.	Assessors' Returns.		Estimated per cent marketed.	Number beef cattle marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value beef cattle marketed.
	Number.	Value.

DAIRY COWS.

There were 520,053 dairy cows reported in Illinois in 1912. The average value per head was \$56, making the total value \$29,183,044.

Milk fever among cows is reported from Kane county.

The following table gives the number and value of the dairy cows kept in Illinois since 1878:

Year.	Number.	Av. value per head.	Total value.
1879.....	571,628	\$31 00	\$17,720,468
1880.....	613,738	31 00	19,035,878

HORSES.

The number of horses reported by assessors this year is 977,527 and their equalized value per head \$26.83, the total value amounting to \$26,227,049.

The number of colts reported foaled in 1911 was 85,470.

Distemper was reported from Champaign, Douglas, Edgar, Hancock, Logan, McDonough, Morgan, Jackson, Randolph and Williamson counties.

The following table gives the number of horses assessed in the State since 1855 and their equalized valuation, as well as the number of colts foaled each year since 1878:

Year.	Assessors' Returns.		Number colts foaled.
	Number.	Value.

SHEEP.

There were 356,822 sheep reported by assessors this year. Their equalized value is \$1.15 per head, making their total equalized value \$410,345.

Of the number assessed 22 per cent, or 78,494, were marketed.

Their total gross weight amounted to 7,851,421 pounds, an average weight of 100 pounds.

The average price received for those marketed prior to December 1 was \$4.55 per cwt., making their total value \$356,194.

The supply of sheep on hand December 1 was 85 per cent as compared with last year, and the average price per cwt. \$4.40.

The following table gives the number, weight and value of the sheep marketed in the State since 1855:

Year.	Assessors' Returns.		Estimated per cent marketed.	Number fat sheep marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value sheep marketed.
	Number.	Value.

BUTTER.

There were 9,364,596 pounds of butter reported sold in 1912.

The average price per pound was 30 cents and the total value sold amounted to \$2,856,593.

In the following table will be found the quantity and value of the butter sold in Illinois during the past thirty-six years:

Year.	Pounds sold.	Price per pound.	Total value.
1877.....	18,970,227	\$0 20	\$3,794,045
1878.....	17,997,652	15	2,699,648

CHEESE.

There were 619,220 pounds of cheese reported sold in 1912.

The average price per pound was 19 cents, and the total value amounted to \$120,394.

The following table shows the quantity and value of the cheese sold in the State since 1876:

Year.	Pounds sold.	Price per pound.	Total value.
1877.....	4,502,671	\$0 12	\$540,320
1878.....	5,139,914	10	513,691

Tables published elsewhere in this report give by counties the quantity and value of the dairy products of the State for 1912.

POULTRY AND EGGS.

The value of the poultry sold in 1912 in northern Illinois was \$1,073,672, in central Illinois \$683,226 and in southern Illinois \$534,151, a total value of \$2,291,049.

The total value of eggs sold in 1912 amounted to \$2,916,667, of which \$1,196,060 is reported from northern Illinois, \$664,783 from central Illinois and \$1,055,824 from the southern division of the State.

SUMMARY.

The following table gives in small space the value of the principal farm products and live stock of Illinois for the year 1912:

Corn	\$108,827,882
Winter wheat	4,663,333
Spring wheat	992,936
Oats	36,578,951
Rye	431,421
Barley	757,451
Buckwheat	28,119
Hay	28,830,089
Timothy seed	142,050
Clover seed	342,912
Hungarian and millet seed	14,792
Irish potatoes	4,364,428
Sweet potatoes	158,267
Turnips and other root crops	221,078
Broom-corn	272,595
Sorghum	267,457
Beans	31,885
Castor beans	69,828
Tobacco	40,608
Other crops not named	119,383
Grapes	17,393
Strawberries	64,646
Watermelons	46,612
Other fruits and berries	33,273
Wine	4,743
Honey	41,744
*Horses (equalized value)	26,227,049
*Beef cattle (equalized value)	10,418,666
Dairy cows	29,183,044
*Hogs (equalized value)	2,647,953
*Sheep (equalized value)	410,345
Wool	338,639
Milk sold	17,877,563
Cream sold	2,594,719
Butter sold	2,856,593
Cheese sold	120,394
Poultry sold	2,291,049
Eggs sold	2,916,667
Total	\$285,249,557

*NOTE—The equalized value as fixed by the State Board of Equalization represents but one-fifth of the actual value.

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season and immediately after harvest, when the information as to condition and yield is most needed, to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition of yield of the harvested crop. In reporting conditions, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or 10 per cent, is recorded 110; a decrease of 5 per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for the term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON, Secretary.

NOTE—The county clerks of the following counties, viz., DuPage, Iroquois, Kankakee, Lee, Livingston, Putnam, Whiteside, and Winnebago furnished the tabulated schedules of agricultural statistics of their counties in accordance with the law, and computations for these counties are based on their reports.

*If the crop had been sold at prevailing prices, December 1, it would have returned this amount to the producer.

NAMES AND POSTOFFICE ADDRESSES

of

CROP CORRESPONDENTS

STATE BOARD OF AGRICULTURE

FOR THE YEAR 1912

WITH DATE OF APPOINTMENT.

ADAMS COUNTY—

1879. G. W. Dean, R. F. D. No. 1,
Adams.
1883. H. C. Cupp, Fall Creek.
1888. C. H. Rankin, Payson, Star
Route.
1904. A. R. Wallace, Jr., Camp Point.

ALEXANDER COUNTY—

1907. G. W. Childress, Olive Branch.
1909. J. L. King, Elco.
1909. Herman Bunch, McClure.

BOND COUNTY—

1885. W. H. Taylor, Greenville.
1898. L. E. Alexander, Reno.
1908. N. Cowen, Sorento.
1910. E. E. Mitchell, Greenville.

BOONE COUNTY—

1899. O. S. Cohoon, Belvidere.
1909. Phil H. Sanford, Garden Prairie.
1911. C. W. Colton, 1519 Pearl st.,
Belvidere.

BROWN COUNTY—

1889. W. B. Rigg, Mt. Sterling.
1909. E. F. Byrns, Mt. Sterling, R. F.
D.
1909. C. J. Davis, Timewell.
1909. J. M. Cronin, Mt. Sterling, R. F.
D.

BUREAU COUNTY—

1897. O. W. Mason, Buda.
1907. D. D. Draper, New Bedford.
1907. Frank J. Nye, Princeton.
1907. John Johnson, Walnut, R. F. D.
No. 4.
1907. E. B. Anthony, Tiskilwa.

CALHOUN COUNTY—

1881. M. A. Kamp, Kampsville.
1909. Wm. Franks, Batchtown.

CARROLL COUNTY—

1909. Wm. Phillips, Mt. Carroll.
1909. Geo. Lang, Chadwick.

CASS COUNTY—

1903. M. L. Crum, Virginia.

CHAMPAIGN COUNTY—

1908. Dr. F. M. Conkey, Homer.
1885. W. E. Dawley, Seymour, R. F.
D. No. 43.
1907. R. E. Chambers, Sadorus.
1907. Reuben Roughton, Rantoul.

CHRISTIAN COUNTY—

1877. A. B. Herdman, Morrisonville.
1878. O. S. Nash, Sharpsburg.
1904. J. Earl White, Morrisonville.
1908. C. W. Ebert, Owanecko.
1909. E. Dixon, Pana.

CLARK COUNTY—

1880. Jerry Ishler, Martinsville, R. R.
No. 4.
1909. T. W. Richards, West York.

CLAY COUNTY—

1904. Leslie F. Brissenden, Flora.
1904. Jno. T. Campbell, Louisville.

CLINTON COUNTY—

1909. Jos. Heimann, Albers.
1901. Frank Bassler, Trenton.
1907. Theo. W. Timmerman, Breese.

COLES COUNTY—

1905. John W. Black, Humboldt.
1905. James A. Walker, Lerna.
1905. E. E. Boyer, Ashmore.
1909. Sam Rardin, Rardin.

COOK COUNTY—

1880. E. Wheeler, Arlington Heights.
1907. M. L. Staples, Palatine.
1907. John T. Cooper, Orland.
1907. C. Doctor, Orland.

CRAWFORD COUNTY—

1882. William F. Wood, Oblong.
1897. W. M. Hart, Annapolis.
1900. Clinton Newlin, Hutsonville.

CUMBERLAND COUNTY—

- 1882. James M. Albin, Neoga.
- 1887. David B. Green, Toledo.
- 1897. J. L. Mattoon, Greenup.

DE WITT COUNTY—

- 1898. C. E. Robb, Clinton.
- 1912. J. T. Sprague, Clinton.

DOUGLAS COUNTY—

- 1887. William Hes, R. F. D. No. 6, Tuscola.
- 1892. Perry N. Howe, R. F. D. No. 3, Tuscola.
- 1909. W. F. Goodspeed, Tuscola.
- 1910. John McCarty, Arcola, R. R. No. 5.

DU PAGE COUNTY—

- 1904. E. W. Plane, West Chicago.
- 1904. F. A. Rogers, Downers Grove.
- 1911. Geo. Keller, Naperville.

EDGAR COUNTY—

- 1892. C. D. Smith, Dudley, R. R. No. 12.
- 1904. F. L. Moss, Edgar.
- 1909. Winfield H. Scott, Chrisman, R. F. D. No. 26.

EDWARDS COUNTY—

- 1889. Ira Gould, Bone Gap.
- 1909. J. R. Doty, Albion.
- 1909. R. P. Roby, West Salem, R. F. D.

EFFINGHAM COUNTY—

- 1883. George W. Strong, Dietrich.
- 1883. T. J. Dunn, Dietrich, R. F. D. No. 2.
- 1902. Chas. Blakely, Altamont.

FAYETTE COUNTY—

- 1910. Carroll A. Davis, Farina.
- 1910. R. K. Hunt, Ramsey.
- 1910. Roy M. Wilson, Brownstown.

FORD COUNTY—

- 1879. S. J. LeFevre, Gibson City.
- 1892. W. B. Flora, Paxton.
- 1902. E. E. Bishop, Piper City.

FRANKLIN COUNTY—

- 1889. John A. Coleman, West Frankfort.
- 1907. M. V. Webb, Benton, R. R. No. 2.
- 1904. C. M. Upchurch, Ewing.
- 1905. J. E. Ice, West Frankfort.
- 1910. John Stagner, West Frankfort, R. R. No. 1.
- 1911. William Browning, Elkville.
- 1911. J. M. Willmore, W. Frankfort.

- 1907. Joseph Hoing, Colmar.
- 1908. Chas. Reinhart, Adair.
- 1909. U. G. Tingley, Vermont.

McHENRY COUNTY—

- 1907. Chas. Gilkerson, Marengo.
- 1909. F. C. Wells, Harvard.
- 1909. C. W. Colton, Marengo.
- 1909. J. H. Turner, Hebron.
- 1887. C. M. Turner, Cambridge.

McLEAN COUNTY—

- 1877. C. R. Ewins, Danvers.
- 1903. G. W. Hiser, Lexington.
- 1904. C. E. Stewart, Randolph, R. R. No. 4.
- 1911. Geo. A. Hunt, Bloomington.

MENARD COUNTY—

- 1884. C. J. McDoel, Petersburg.
- 1884. Alex. M. Montgomery, Greenville, R. R. No. 1.
- 1897. T. H. Alkire, Athens.
- 1903. C. P. Corson, Tallula.
- 1911. C. C. Judy, Tallula.

MERCER COUNTY—

- 1877. Dan W. Sedwick, Alexis, R. F. D. No. 3.
- 1897. C. E. Bentley, Aledo.
- 1897. Elisha Lee, Aledo, R. F. D.

MONROE COUNTY—

- 1895. Fred Hesterberg, Maeystown.
- 1899. James H. Lemen, Columbia.
- 1885. W. A. Dinan, Prairie du Rocher.

MONTGOMERY COUNTY—

- 1881. E. H. Donaldson, Fillmore.
- 1881. A. T. Strange, Hillsboro.
- 1908. J. M. Waggoner, Waggoner.

MORGAN COUNTY—

- 1887. E. Etter, Waverly.
- 1895. W. H. Cooper, Concord.
- 1896. Geo. H. Hall, Alexander.
- 1908. W. F. Nergenah, Chapin.
- 1911. F. C. Nickel, Concord.
- 1912. A. J. Johnson, Murrayville.

MOULTRIE COUNTY—

- 1877. Wm. Kirkwood, Sullivan.
- 1894. Thos. H. Crowder, Bethany.
- 1910. S. A. York, Arthur.
- 1910. A. W. Treat, Gays.
- 1910. Levi Seass, Arthur.
- 1910. S. M. McReynolds, Bethany.

OGLE COUNTY—

- 1907. Chas. B. Spring, Lindenwood.
- 1907. B. F. Perry, Lindenwood.
- 1907. August Kaney, Sr., Forreton, R. R. No. 1.

PEORIA COUNTY—

- 1882. W. E. Elliott, Princeville.
- 1901. W. H. Allen, Dunlap.
- 1907. James Kyle, Cramer.
- 1907. H. F. Caldwell, Chillicothe.
- 1907. Peter Cahill, Brimfield.
- 1907. Ira Cottingham, Eden.
- 1907. Wm. T. Cowley, Brimfield.
- 1907. F. F. Stein, Trivoli, R. R. No. 14.

PERRY COUNTY—

- 1893. James B. Ervin, Swanwick.
- 1907. F. L. Williams, Tamaroa, R. R. No. 1.
- 1907. Alva Johnson, Pinckneyville, R. R. No. 1.
- 1907. A. H. Evans, Tamaroa.
- 1911. J. A. Johnson, Pinckneyville.

PIATT COUNTY—

- 1891. V. Hawthorne, La Place.
- 1903. R. M. Cathcart, DeLand.
- 1906. Roy H. Jones, Monticello.

PIKE COUNTY—

- 1899. C. G. Winn, Griggsville.
- 1899. G. W. Gibbens, Hadley, R. R.
- 1903. S. E. Carnes, Pittsfield.
- 1903. Abel Dunham, New Salem.
- 1910. Chas. E. Kuechler, Barry.

ILLINOIS CROP REPORT

FOR

May 1, 1913

SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE.

SPRINGFIELD, May 1, 1913.

The information contained in this report was obtained from the reports of correspondents mailed to this department the first day of May.

The correspondents are, as a rule, representative farmers of extended experience who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-six years, and their estimates for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred and are so distributed over the State as to fairly represent each locality.

The State covers an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

WINTER WHEAT.

The area winter-killed or destroyed by floods the past season was 6 per cent of that seeded last fall, leaving 946,939 acres for harvest.

In northern Illinois the area destroyed was 5 per cent, in central Illinois 4 per cent, and in southern Illinois 8 per cent.

The condition of the growing crop on May 1 was 94 per cent of normal in northern Illinois, 98 per cent in central Illinois, and 85 per cent in southern Illinois, a State average of 92 per cent, which is 38 points better than the May 1 condition of a year ago.

Chinchbugs are reported from Jersey, Macoupin, Randolph and Washington counties and Hessian fly from Pope county.

SPRING WHEAT.

A decrease of 7 per cent is reported in the area seeded to spring wheat this year and the condition May 1 is reported as 94 per cent of normal.

OLD WHEAT.

Of the 6,315,265 bushels of wheat raised in Illinois last year, it is estimated that there was on May 1, 451,640 bushels or about 7 per cent in the producers' hands.

Northern Illinois reports 9 per cent in first hands, central Illinois 5 per cent and southern Illinois 8 per cent.

CROP REPORT.

The following table gives the amount of old wheat in first hands May 1, since and including 1880:

YEAR PRODUCED.	Crop in bushels.	Per cent crop on hand following May 1.	Amount crop in producers' hands following May 1.	Surplus wheat above seed and consumption at harvest.	Deficit at harvest.
1880	56,508,309	15	8,476,246	39,851,883
1881	22,374,163	13	2,924,039	5,765,414
1882	52,323,261	15	8,174,634	36,214,133
1883	20,374,572	15	3,208,358	4,575,152
1884	34,367,493	18	6,350,202	17,367,794
1885	8,299,243	14	2,201,904	5,439,786
1886	28,284,068	15	4,000,931	12,082,999
1887	38,076,468	13	5,034,875	21,842,119
1888	33,916,920	12	4,022,569	17,334,947
1889	37,201,916	15	5,722,594	20,919,433
1890	13,608,504	12	1,580,903	2,002,400
1891	34,620,828	17	6,653,995	16,853,536
1892	30,578,543	18	5,428,060	13,086,069
1893	18,916,314	14	2,657,854	891,488
1894	41,315,099	13	5,512,379	23,288,962
1895	18,093,503	10	1,813,244	169,992
1896	21,514,581	9	2,012,437	3,683,784
1897	10,255,525	8	848,892	7,600,394
1898	18,383,943	9	1,635,451	563,474
1899	11,054,736	8	899,397	7,302,728
1900	22,006,632	9	1,943,083	3,800,840
1901	31,117,798	9	2,893,379	9,197,123
1902	36,588,783	9	3,372,341	14,792,384
1903	16,118,300	8	1,263,791	5,539,833
1904	20,177,390	11	2,981,241	1,183,531
1905	22,459,320	10	2,267,322	1,184,844
1906	28,458,122	11	3,078,034	7,197,382
1907	24,693,328	11	2,640,499	3,483,443
1908	19,508,260	4	876,875	1,622,852
1909	20,533,822	9	1,944,087	291,583
1910	18,702,068	11	1,972,607	2,280,835
1911	22,722,316	8	1,877,638	1,705,873
1912	6,315,205	7	451,640	17,967,233
Average	25,438,465	13	3,203,682	12,461,236	4,812,459

WINTER RYE.

The area winter-killed or destroyed by floods the past season was 2 per cent of that seeded last fall, leaving 35,061 acres for harvest.

The May 1 condition of winter rye was 95 per cent of normal in northern Illinois, 97 per cent in central Illinois and 93 per cent in southern Illinois, a State average of 95 per cent.

OATS.

There is a decrease of 3 per cent reported in the area seeded to oats for the 1913 crop, as compared with last year.

The May 1 condition of oats is 86 per cent of normal, being 86 per cent in northern Illinois, 85 per cent in central Illinois and 87 per cent in the southern division of the State.

BARLEY.

There is a decrease of 2 per cent in the area devoted to barley in northern Illinois, and its condition May 1 is reported as 89 per cent of normal.

But very little barley is grown in the central and southern divisions of the State.

OLD CORN.

The Illinois corn crop of 1912, as reported to this Department, was 270,806,079 bushels. Of this amount about 33 per cent, or 88,339,408 bushels, was in the producers' hands on May 1.

Livingston county produced the largest corn crop of any county in the State in 1912, that of 12,718,665 bushels.

The following table gives the amount of old corn in the producers' hands May 1, the past thirty-four years, as well as the extent of the crop produced each year.

YEAR PRODUCED.	Crop.	Per cent corn on hand following May 1.	Bushels corn in producer's hands following May 1.
1879	305,913,277	32	99,229,889
1880	250,697,036	28	71,929,343
1881	174,491,706	21	37,445,964
1882	179,471,729	24	43,450,857
1883	186,583,558	21	39,478,621

1897	239,360,474	38	92,134,456
1898	215,222,825	32	68,695,412
1899	259,618,956	27	69,855,366
1900	305,207,391	27	83,300,481
1901	183,792,241	21	38,776,281
1902	320,977,301	35	112,394,471
1903	275,735,599	30	83,813,726
1904	281,058,931	26	73,777,043
1905	309,316,053	31	95,836,758
1906	284,077,262	32	91,150,405
1907	254,608,895	23	58,870,966
1908	213,366,624	24	50,757,447
1909	265,940,893	29	77,458,339
1910	280,967,790	31	88,162,280
1911	248,953,114	25	61,783,574
1912	270,806,079	33	88,339,408
Average	236,236,621	30	69,796,889

MEADOWS.

There is an increase of 1 per cent in the area devoted to meadows as compared with last year.

Their May 1 condition was 92 per cent of normal in northern Illinois and 95 per cent in both central and southern Illinois.

PASTURES.

The area devoted to pastures is 99 per cent as compared with last year.

In northern Illinois, where many counties report the need of rain, the condition of pastures is reported as 90 per cent of normal and 94 per cent in both the central and southern divisions of the State.

SPRING PLOWING.

About two-thirds of the entire amount of spring work is usually completed by May 1, but this year less than one-half of the work is reported as attended to on that date.

The condition of the soil is reported generally as hard and dry, and "difficult to work."

LIVE STOCK.**HORSES.**

The number of horses reported May 1 is 98 per cent as compared with 1912, and their May 1 condition is 98 per cent of normal.

Distemper is reported from Marshall, Cumberland, Hancock, Macon, Moultrie, Sangamon, Franklin, Jefferson, Randolph, Saline and Washington counties.

MULES.

The number of mules reported May 1 is 99 per cent as compared with last year, and their May 1 condition is 99 per cent of normal.

CATTLE.

The number of cattle reported this year is 91 per cent as compared with 1912, and their May 1 condition is 98 per cent of normal.

DAIRY COWS.

The number of dairy cows is reported as 98 per cent as compared with last year, and their condition May 1 is 98 per cent of normal.

HOGS.

The number of hogs on hand May 1 is 87 per cent as compared with 1912, and their May 1 condition is 98 per cent of normal in the northern and southern divisions and 97 per cent in the central division.

Hog cholera is reported from DeKalb, Adams, Brown, Calhoun, Christian, Douglas, Edgar, Jersey, Macoupin, McDonough, Menard, Platt, Sangamon, Schuyler, Crawford, Fayette, Jackson, Madison and Washington counties.

SHEEP.

The number of sheep reported is 89 per cent as compared with last year and their condition on May 1 was 98 per cent of normal.

FRUIT.

The prospect on May 1 was most favorable for an abundant yield of fruit.

WAGES PAID FARM HANDS.

A slight increase in the wages paid to farm hands is reported this year, but the supply of help is 12 per cent short of the number required.

The average wages paid farm hands for the past thirty-four years is given in the following table:

DIVISION.	PER DAY.		PER MONTH.	
	With board.	Without board.	With board.	Without board
Northern	\$1 10	\$1 45	\$22 10	\$30 15
Central	95	1 20	19 65	26 20
Southern	70	1 00	16 10	22 35
Average	\$0 90	\$1 20	\$19 30	\$26 25

The wages paid farm help in the three divisions of the State, during the past thirty-four years, are given in the following tables:

CROP REPORT.

NORTHERN DIVISION.

YEAR.	PER DAY.		PER MONTH.	
	With board.	Without board.	With board.	Without board.
1880	\$0 95	\$1 15	\$17 55	\$25 25

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimate of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not intended that these reports will exactly coincide with the official assessor's returns, but they do represent the condition or yield of the various crops, etc., at the date given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON, Secretary.

ILLINOIS CROP REPORT

FOR

JUNE 20, 1913

Synopsis of the Reports of Correspondents Upon the Acreage and Yield of Crops, Etc.

Illinois State Board of Agriculture
Springfield, June 20, 1913.

The information contained in this report was obtained from the reports of correspondents mailed to this office the twentieth of June.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-two years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred and fifty, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

CORN.

A decrease of 2 per cent is reported in the area devoted to corn as compared with 1912.

The June 20th condition of corn in northern Illinois, where late frosts injured corn in a number of counties, is 86 per cent of normal.

A protracted drought in the central and southern divisions of the State is responsible for the condition reported there, which is 71 per cent of normal in central Illinois and 74 per cent in southern Illinois.

Cut, wire and grub worms and root lice are reported as working on corn in many counties of the State, while chinchbugs are reported as numerous in the central and southern divisions.

Seed corn was reported of excellent quality, 100 per cent of a seasonable average.

The earliest appearance of corn above ground, April 10, was reported from Johnson county, but most of it appeared the first fifteen days of May.

BROOM CORN.

The area of broom corn is 88 per cent as compared with last year and the June 20th condition 85 per cent of normal.

SORGHUM.

A decrease of 6 per cent in the area of sorghum this year is reported.

In northern Illinois its June 20th condition is reported as 90 per cent of normal and 76 per cent in both the central and southern divisions of the State.

WINTER WHEAT.

The June 20th condition of winter wheat in northern Illinois was 92 per cent, in central Illinois 88 per cent and in southern Illinois 87 per cent, a State average of 89 per cent, which is 44 points better than the June 20th condition of 1912.

SPRING WHEAT.

There is a decrease of 9 per cent in the area of this crop in northern Illinois, where, practically all the spring wheat is raised, and the June 20th condition is reported as 93 per cent of normal.

OATS.

The June 20th condition of oats is 88 per cent of normal in northern Illinois and 40 per cent in both central and southern Illinois, a State average of 55 per cent of normal.

Unseasonable hot weather and deficiency of moisture caused this crop to deteriorate 31 points since May 1.

RYE.

The condition of rye on June 20 was 88 per cent of normal, being 88 per cent in northern Illinois, 90 per cent in central Illinois and 87 per cent in the southern division of the State.

BARLEY.

The June 20 condition of barley in northern Illinois was 94 per cent of normal, in central Illinois 83 per cent and in southern Illinois 90 per cent.

MEADOWS.

A slight increase is reported in the area of meadows, being 101 per cent of an average in northern Illinois, 104 per cent in central Illinois and 99 per cent in southern Illinois.

Meadows are reported as short and poor in the central and southern divisions of the State, due to a severe drought which prevailed in these divisions.

Their June 20 condition is 62 per cent of normal, being 95 per cent of normal in northern Illinois, 54 per cent in central Illinois and 38 per cent in the southern division of the State.

CLOVER.

There is an increase of 7 per cent in the area devoted to clover as compared with last year.

In northern Illinois the June 20th condition of clover was 101 per cent of normal, in central Illinois 81 per cent and in southern Illinois 65 per cent, a State average of 82 per cent.

ALFALFA.

The condition of Alfalfa on June 20 is reported from seventy-five counties of the State. Northern Illinois reports the condition as 98 per cent of normal, central Illinois 82 per cent and southern Illinois 69 per cent.

HUNGARIAN AND MILLET.

In northern Illinois the area of Hungarian and Millet is 79 per cent as compared with 1912, in central Illinois 71 per cent and in southern Illinois 82 per cent.

PASTURES.

The area devoted to pastures is 99 per cent as compared with 1912.

The condition of pastures on June 20 in northern Illinois was 99 per cent of a seasonable average.

Pastures have been seriously injured by drought in the central and southern divisions of the State, where their condition is reported as 63 per cent and 50 per cent of normal, respectively.

IRISH POTATOES.

A decrease of 5 per cent is reported in the area devoted to Irish potatoes as compared with last year.

Their June 20 condition is 72 per cent of normal, being 95 per cent in northern Illinois, 61 per cent in central Illinois and 60 per cent in the southern division of the State.

SWEET POTATOES.

There is a decrease of 6 per cent in the area devoted to sweet potatoes this year and their June 20 condition is 76 per cent of normal.

FIELD BEANS.

The area of field beans is 7 per cent less than in 1912, and their June 20 condition is 83 per cent of a seasonable average.

COW PEAS.

The area of cow peas is 97 per cent as compared with last year in northern Illinois, 91 per cent in central Illinois and 84 per cent in the southern division of the State.

TOBACCO.

No reports were received from northern and central Illinois on the area or condition of tobacco. In southern Illinois the area is 77 per cent as compared with last year and the June 20 condition is 74 per cent of normal.

FRUIT.

A favorable report of the fruit yield and condition is received from northern Illinois but the hot, dry weather of May and June in the central and southern divisions cut short the abundant yield of fruit which was anticipated on May 1. Many counties report fruit as falling badly.

CHERRIES.

In northern Illinois the yield is 93 per cent of a seasonable average, in central Illinois 97 per cent and in southern Illinois 87 per cent.

STRAWBERRIES.

The yield of strawberries was 85 per cent of normal in northern Illinois, 64 per cent in central Illinois and 84 per cent in the southern division of the State.

RASPBERRIES.

The yield of raspberries was 95 per cent of normal in northern Illinois, 69 per cent in central Illinois and 78 per cent in the southern division of the State.

GOOSEBERRIES.

Northern Illinois reports the yield of gooseberries as 89 per cent of normal, central Illinois 80 per cent and southern Illinois 82 per cent.

CURRANTS.

The yield of currants is reported as 88 per cent of a seasonable average in northern Illinois, 71 per cent in central Illinois and 68 per cent in the southern division of the State.

VINEYARDS.

The area of vineyards as compared with 1912 is 97 per cent in the northern and central divisions of the State and 98 per cent in southern Illinois.

The June 20 condition of vineyards is reported as 87 per cent of normal.

YOUNG LIVE STOCK.

PIGS.

The number of pigs reported this year is 90 per cent as compared with 1912 and their June 20 condition is 96 per cent of normal.

LAMBS.

The number of lambs is 90 per cent as compared with last year and their June 20 condition is 97 per cent of a seasonable average.

CALVES.

The number of calves reported this year is 97 per cent as compared with 1912 in northern Illinois and 94 per cent in both the central and southern divisions of the State.

Their June 20 condition is 99 per cent of normal in northern and central Illinois and 95 per cent in southern Illinois.

COLTS.

The number of colts foaled this year as compared with 1912 is 95 per cent and their June 20 condition is 98 per cent of normal.

The average value of colts at weaning time is reported as \$56 in northern Illinois, \$61 in central Illinois and \$57 in southern Illinois.

The number of colts lost prior to weaning is reported as 9 per cent in northern Illinois, 8 per cent in central Illinois and 6 per cent in the southern division of the State.

The average cost of service of stallions in northern Illinois is reported as \$15, in central Illinois \$13, and in southern Illinois \$11.

WOOL.

The wool clip of 1913 was 91 per cent as compared with 1912, being 93 per cent in northern Illinois and 90 per cent in both the central and southern divisions of the State.

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessor's returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON,

Secretary.

ILLINOIS CROP REPORT

FOR

AUGUST 1, 1913.

SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

Illinois State Board of Agriculture,
Springfield, August 1, 1913.

The information contained in this report was obtained from the reports of correspondents mailed to this office the first of August.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for many years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred and fifty and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

WHEAT.

The area seeded to wheat for the crop of 1913 was 1,058,004 acres, all of which was winter wheat, with the exception of 52,429 acres. Six per cent of the winter wheat area was winter-killed or otherwise destroyed, leaving 993,468 acres of wheat (spring and winter) for harvest.

The average yield per acre was 18 bushels and the total yield amounted to 18,063,415 bushels.

The ruling price of wheat August 1 was 80 cents per bushel, and the value of the entire crop at this price amounted to \$14,511,381.

CROP REPORT.

The following table gives the area, yield and value of the wheat crop of the State during the past fifty-three years:

WHEAT (SPRING AND WINTER).

Year.	Number of acres harvested.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

WHEAT CONSUMPTION.

In estimating the amount of wheat required in the State for seed and bread, it is necessary to consider the entire area seeded instead of that harvested, as the amount required for seed is based on the area seeded last year, which was 1,058,004 acres. As one and one-third bushels per acre is used for seed, it will require 1,410,671 bushels to seed next year's crop.

Allowing four bushels per capita for food, it takes, according to the 1910 census, which gives Illinois 5,638,591 inhabitants, 22,554,364 bushels for that purpose, so that 23,965,035 bushels will be required for home use (seed and consumption).

As 18,063,415 bushels were raised in the State this year, it will be necessary to import 5,901,620 bushels or equivalent in flour to fill the demand of the home market.

OATS.

The area seeded to oats for 1913 was reported as 2,638,262 acres, of which 1,649,838 acres are reported from northern Illinois, 842,863 acres from central Illinois, and 145,561 acres from the southern division of the State.

The oats crop was cut short by the extreme heat and prolonged drought, the average yield being 27 bushels, the lightest yield per acre reported since 1908.

In northern Illinois the yield was reported as 33 bushels per acre, in central Illinois 19 bushels and in southern Illinois 9 bushels, the total yield amounting to 72,559,150 bushels.

The ruling price of oats on August 1 was 36 cents per bushel, and the value of the crop amounted to \$25,984,148.

The following table gives the area, yield and value of the oats crop of the State during the past fifty-three years:

Year.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860	543,572	28	15,220,029	\$0 26	\$ 3,957,207	\$ 7 28	\$9 40	\$ 5,109,577	\$1,152,370

A table published elsewhere in this report gives the area, yield and value of the oats crop in each county in the State this year.

WINTER RYE.

An increase of 12 per cent is noted in the area of winter rye, 36,919 acres being reported.

The average yield per acre was 19 bushels and the total yield amounted to 684,541 bushels.

The average price on August 1 was 60 cents per bushel, and the total value of the crop amounted to \$408,387.

The following table gives the area, yield and value of the past fifty-three rye crops grown in the State.

Year.	Number of acres.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

A table published elsewhere in this report gives the area, yield and value of rye in each county in the State.

BARLEY.

There are 38,646 acres of barley reported this year. The average yield was 28 bushels per acre, and the total yield amounted to 1,094,027 bushels.

The ruling price per bushel on August 1 was 51 cents and the value of the crop amounted to \$557,559.

The following table gives the area, yield and value of the last fifty-three barley crops produced in the State:

Year.	Number of acres harvested.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

In a table published elsewhere in this report will be found the area, yield and value of the barley crop in the State by counties.

HAY.

The area devoted to meadows is reported as 1,672,833 acres.

In northern Illinois the yield was $1\frac{1}{2}$ tons per acre.

Meadows suffered greatly from drought in the central and southern divisions where the yield is reported as $\frac{2}{3}$ of a ton from central and $\frac{1}{2}$ ton from the southern division.

The total yield was 1,801,329 tons and the value of the crop at the average price of \$10.95 per ton, amounted to \$19,752,396.

The August 1 condition of clover was 94 per cent of normal and the average yield was one ton per acre.

The following table gives the area, yield and value of the last fifty-three hay crops produced in this State:

Year.	Number of acres harvested.	Average yield per acre—tons.	Tons produced.	Price per ton.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

CORN.

There is a decrease of 197,265 acres reported in the area devoted to corn as compared with last year, 6,681,532 acres being reported.

Northern Illinois reports 2,887,848 acres, central Illinois 2,991,835 acres and southern Illinois 801,849 acres.

The August 1 condition is reported as 81 per cent in northern Illinois, 67 per cent in central Illinois and 72 per cent in southern Illinois, a State average of 73 per cent, which is a decrease of 4 points in the condition since the June 20th report.

Corn was damaged by the long dry spell and intense heat and with but few exceptions rain was needed badly in every county of the State on August 1.

Corn is reported as "firing" from Knox, Marshall, Mercer, Peoria, Putnam, Woodford, Douglas, Logan, Macon, McDonough, Menard, Pike, Jefferson and St. Clair counties.

Chinchbugs were reported from Christian, Jersey, Macoupin, Montgomery, Fayette Madison, St. Clair and Washington counties.

BROOM CORN.

The August 1 condition of this crop is 75 per cent of normal, being 85 per cent in northern Illinois, 69 per cent in central Illinois and 71 per cent in the southern division of the State.

SORGHUM.

The condition of sorghum on August 1 was 77 per cent of normal in northern Illinois, 70 per cent in central Illinois and 74 per cent in the southern division of the State.

PASTURES.

There is a decrease of 72,716 acres in the area of pastures as compared with last year, the total area being 3,520,807 acres.

Pastures are reported as badly damaged by drought, their August 1 condition being 79 per cent of normal in northern Illinois, 44 per cent in central Illinois and 50 per cent in southern Illinois, a State average of 57 per cent, which is a decrease of 14 points since the June 20th report.

IRISH POTATOES.

The August 1 condition of Irish potatoes is reported as 73 per cent of normal in northern Illinois, 43 per cent in central Illinois and 44 per cent in southern Illinois, a State average of 53 per cent, and a decrease of 19 points since June 20th.

SWEET POTATOES.

The condition of sweet potatoes on August 1 is 77 per cent of normal in northern Illinois, 66 per cent in central Illinois and 65 per cent in southern Illinois, a State average of 69 per cent.

BUCKWHEAT.

A decrease of 14 per cent is reported in the area of buckwheat as compared with last year and its August 1 condition is 69 per cent of normal.

TURNIPS AND OTHER ROOT CROPS.

The area of turnips and other root crops is 96 per cent as compared with 1912 in northern Illinois, 78 per cent in central Illinois and 87 per cent in southern Illinois.

The condition of turnips and other root crops on August 1 was 68 per cent of normal.

CASTOR BEANS.

Only two counties, Hamilton and Jackson, report castor beans, where the August 1 condition is given as 92 per cent and 100 per cent of normal respectively.

TOBACCO.

Jo Daviess is the only county in the northern division of the State reporting on this crop and gives the August 1 condition as 100 per cent of normal.

No report is received on tobacco from the central division of the State. In the southern division its August 1 condition is given as 60 per cent of normal.

COW PEAS.

The condition of cow peas on August 1 is given as 81 per cent of normal in northern Illinois, 77 per cent in central Illinois and 80 per cent in southern Illinois, a State average of 79 per cent.

FIELD BEANS.

The August 1 condition of field beans is 86 per cent of normal in northern Illinois, 68 per cent in central Illinois and 72 per cent in the southern division of the State.

FRUIT.

APPLES.

The August 1 condition of apples in northern Illinois was 85 per cent of normal, in central Illinois 79 per cent and 70 per cent in southern Illinois, a State average of 78 per cent.

Apples are reported as falling badly.

PEACHES.

The condition of peaches on August 1 was 74 per cent of normal, being 84 per cent in northern Illinois, 69 per cent in central Illinois and 70 per cent in the southern division of the State.

PEARS.

The August 1 condition of pears is 78 per cent of normal in northern Illinois, 66 per cent in central Illinois and 51 per cent in southern Illinois, a State average of 65 per cent.

PLUMS

The condition of plums on August 1 was 78 per cent of normal in northern Illinois, 82 per cent in central Illinois and 86 per cent in southern Illinois, a State average of 82 per cent.

GRAPES.

The condition of grapes on August 1 was 88 per cent of normal, being 84 per cent in northern Illinois, 88 per cent in central Illinois and 92 per cent in the southern division of the State.

BLACKBERRIES.

The blackberry crop this year was 78 per cent of an average yield in northern Illinois, 55 per cent in central Illinois and 77 per cent in southern Illinois.

QUINCES.

There are but few quinces raised in Illinois and their August 1 condition is 74 per cent of normal.

LIVE STOCK.

Owing to lack of pasture, farm animals are reported rather thin, but otherwise in good condition.

Distemper is reported from Fulton county and pinkeye among dairy cows from Pope county.

Hog cholera is reported from Henry, Kendall, Putnam, Warren, Adams, Douglas, Edgar, Jersey, Pike, Schuyler, Shelby, Alexander, Edwards, Gallatin, Johnson, Monroe and Union counties.

DRAIN TILE.

The number of feet of drain tile reported in the State amounts to 750,433,648 feet, which gives an average of 29 feet to each acre of cultivated land in Illinois.

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting conditions, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON,
Secretary.

NOTE.

The county clerks of the following counties, viz: Carroll, DeKalb, DuPage, Henderson, Iroquois, Kendall, Lee and Winnebago, furnished the tabulated schedules of agricultural statistics of their counties in accordance with the law, and computations for those counties are based on their reports.

ILLINOIS CROP REPORT

FOR

DECEMBER 1, 1913.

SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE,
SPRINGFIELD, December 1, 1913.

The information contained in this report as to the acreage of crops and number of head of live stock was obtained from the reports of assessors made to this Department as required by law.

The data in regard to yield per acre, price of crops and value of crops and live stock was obtained from crop correspondents, who number three hundred and thirty, and represent every section of the State.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-six years, and their estimates, for a term of years, when compared with subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

WINTER GRAIN.

WHEAT.*

An increase of 16 per cent in the area seeded to wheat for the 1914 crop is reported.

Northern Illinois reports 35,384 acres, central Illinois 551,056 acres, and southern Illinois 577,124 acres, a total area of 1,163,564 acres.

The December 1 condition of the growing crop is excellent, being 99 per cent of normal in the northern division, 105 per cent in the central division, and 103 per cent in the southern division, a State average of 102 per cent.

Hessian fly in wheat was reported from Adams, Cass, Christian, Jersey, Macoupin, Mason, Montgomery, Morgan, Sangamon, Scott, Schuyler, Clinton, Edwards, Monroe, St. Clair, Wabash and Washington counties.

RYE.

The area seeded to rye is reported as 35,575 acres, a decrease of 5 per cent in area as compared with last year.

The condition of this crop on December 1 was 99 per cent of normal in northern Illinois, 104 per cent in central Illinois and 100 per cent in southern Illinois, a State average of 101 per cent.

CROP REPORT.

CORN.

The area of the corn crop of 1913 is reported as 6,635,847 acres.

Northern Illinois reports 2,842,163 acres, central Illinois 2,991,835 acres, and southern Illinois 801,849 acres.

Drought and intense heat cut short the yield of corn, the average yield per acre being but 27 bushels, which was the lightest yield reported since 1901.

Northern Illinois reports the yield as 34 bushels per acre, central Illinois 24 bushels, and southern Illinois 19 bushels.

The total corn crop of the State amounted to 181,300,629 bushels.

The ruling price of corn on December 1 was 63 cents per bushel, and the total value of the crop amounted to \$114,473,290.

The quality of the grain was but 81 per cent of normal, being 90 per cent in northern Illinois, 77 per cent in central Illinois, and 76 per cent in the southern division of the State.

CROP REPORT.

5

The area, yield and value of the corn crop of the State for the past fifty-four years is given in the following table:

Year.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel—cents.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860..	3,839,159	30	115,174,770	42½	\$ 48,944,277	\$12 74	\$10 50	\$40,311,169	\$ 8,633,108	\$12,669,225

CROP REPORT.

BROOM-CORN.

The area devoted to broom-corn is reported as 10,542 acres.

The total yield amounted to 6,556,000 pounds, the average yield being 667 pounds.

The ruling price December 1 was \$122 per ton and the total value of the crop amounted to \$399,377.

The following table gives the area, yield and value of the broom-corn crop of Illinois since 1876:

Year.	Acreage.	Av. yield per acre— pounds.	Total yield— pounds.	Price per ton.	Value of crop.
1877.....	14,566	458	6,674,747	\$ 71 20	\$ 237,594

CROP REPORT.

7

SORGHUM.

There were 4,074 acres reported devoted to sorghum in 1913. The average yield per acre was 69 gallons and the total yield amounted to 282,481 gallons.

The ruling price December 1 was 65 cents per gallon, the total value of the product being \$177,991.

The following table gives the area, yield and value of the sorghum crops produced in the State since 1876:

Year.	Acreage.	Av. yield per acre— gallons.	Total number of gallons.	Price per gallon.	Value of crop
1877.....	19,335	63	1,237,164	\$0 42	\$515,409

BUCKWHEAT.

The area of buckwheat is reported as 1,121 acres.

The average yield per acre was 14 bushels and the total yield amounted to 15,555 bushels.

The ruling price December 1 was 95 cents per bushel, and the total value of the crop amounted to \$14,680.

The following table gives the area, yield and value of the buckwheat crop in this State for the past thirty-seven years:

Year.	Acreage.	Av. yield. per acre— bushels.	Total number of bushels.	Price per bushel.	Value of crop.

CROP REPORT.

CLOVER SEED.

The amount of clover seed produced in 1913 was reported as 40,478 bushels.

The average price per bushel was \$7.45 and the total value of the crop amounted to \$301,048.

In the following table will be found the yield and value of the crop of clover seed for 1913, as compared with the thirty-six years preceding:

Year.	Bushels pro- duced.	Price per bushel.	Value of crop.
1877.....	64,686	\$ 4 80	\$310,493
1878.....	77,388	4 05	313,421

CROP REPORT.

11

HUNGARIAN AND MILLET SEED.

There were 20,472 bushels of Hungarian and millet seed produced in 1913.

The average price per bushel was 90 cents, making the total value of the crop \$18,846.

The following table gives the yield and value of this crop since 1876:

Year.	Bushels pro- duced.	Price. per bushel.	Value of crop.
1877.....	17,463	\$0 65	\$10,701

CROP REPORT.

ALFALFA.

The area of alfalfa is reported by our correspondents as about 18,000 acres, being 8,000 in northern Illinois, 3,000 in central Illinois, 7,000 in southern Illinois.

The price of alfalfa is reported as \$16 per ton in northern Illinois and \$17.50 in both the central and southern divisions of the State.

BEANS.

There were 900 acres reported devoted to beans in 1913. The average yield per acre was 16 bushels and the total yield amounted to 14,528 bushels.

The ruling price December 1 was \$2.65 per bushel and at this price the value of the crop amounted to \$38,379.

The following table gives the area, yield and value of the 1913 crop of beans, together with those of thirty-six years preceding:

Year.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	1,545	13	19,955	\$1 50	\$29,916

CASTOR BEANS.

The area devoted to castor beans is reported as 5,929 acres, and the average yield per acre 18 bushels, making the total yield 106,722 bushels.

The ruling price December 1 was \$1.25 per bushel and the total value of the crop amounted to \$133,395.

In the following table is given the area, yield and value of this crop since 1877:

Year.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	4,503	3 ¹ / ₄	17,538	\$1 10	\$ 18,512

TOBACCO.

The area in tobacco in 1913 was reported as 464 acres. The average yield per acre was 584 pounds, and the total yield amounted to 271,000 pounds.

The total value of the crop at the ruling price of 10 cents per pound on December 1, was \$26,945.

The following table gives the area, yield and value of the crop in this State since 1876:

Year.	Acreage.	Av. yield per acre— pounds.	Total number of pounds.	Price per pound.	Value of crop.
1877.....	12,320	640	7,885,586	\$0 08	\$638,848

PASTURES.

The area devoted to pastures in 1913 was reported as 3,521,966 acres.

The average value per acre for the season of 1913 was \$5.40 and the total value amounted to \$19,048,814.

The following table gives the area and value of pastures for thirty-seven years past:

Year.	Acreage.	Value per acre.	Value of crop.
1877.....	4,367,603	\$3 38	\$14,764,112

IRISH POTATOES.

The area devoted to Irish potatoes in 1913 was reported as 68,232 acres.

The average yield per acre was but 46 bushels and the total yield amounted to 3,109,459 bushels.

The average price per bushel on December 1 was 85 cents and the total value of the crop amounted to \$2,699,485.

The following table gives the area, yield and value of the Irish potato crops of the State since 1859:

Year.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860.....	69,225	80	5,540,300	\$0 31	\$1,717,520	\$24 80	\$20 55	\$1,422,574	\$ 294,946

SWEET POTATOES.

The area devoted to sweet potatoes in 1913 was reported as 1,695 acres.

The total yield amounted to 120,208 bushels, an average of 71 bushels per acre.

The average price was 90 cents per bushel and the total value of the crop at this price amounted to \$107,135.

The following table gives the area, yield and value of the sweet potato crop of the State for the past thirty-seven years:

Year.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	2,355	63	148,270	\$0 85	\$126,092

TURNIPS AND OTHER ROOT CROPS.

A decrease of 13 per cent is reported in the area of turnips and other root crops, 274 acres being reported.

The average value per acre is \$620.79, and the total value \$170,097.

The average yield of turnips per acre was 64 bushels.

The following table gives the acreage and value of turnips and other root crops grown in the State during the past thirty-seven years:

Year.	Acreage.	Value per acre.	Value of crop.

FRUIT.

APPLES.

Northern Illinois reports the yield of winter apples 120 per cent as compared with 1912; central Illinois 96 per cent, and southern Illinois 88 per cent.

The average price of apples on December 1 was reported as 95 cents per bushel.

PEACHES.

Northern Illinois reports the yield of peaches 136 per cent as compared with 1912, central Illinois 125 per cent, and southern Illinois 118 per cent.

The average price of peaches in their season was reported as \$1.20.

PEARS.

Northern Illinois reports the yield of pears 110 per cent as compared with 1912, central Illinois 83 per cent and southern Illinois 71 per cent.

The average price of pears in their season was reported as \$1.00 per bushel.

GRAPES.

There were 608,023 pounds of grapes produced in 1913. Of this amount 477,910 pounds were reported from the southern division of the State.

The average price of 2 cents per pound gives a total value of \$14,123.

The following table gives particulars concerning the grape crop of the State for the past thirty-seven years:

Year.	Pounds pro- duced.	Price per pound.	Value of crop.

CROP REPORT.

WINE.

The area in vineyards this year was reported as 3 per cent less than in 1912, or 687 acres.

There were 4,569 gallons of wine reported produced, being an average yield of 7 gallons.

The average price per gallon was 85 cents, and the total value amounted to \$3,853.

The following table gives the number of gallons of wine and the value thereof during the past thirty-seven years:

Year.	Acreage.	Av. yield per acre— gallons.	Number of gallons. produced.	Price per gal'on.	Value of crop.
1877	2,612	61	158,944	\$1 20	\$191,933
1878	5,178	27	142,964	1 20	171,557

CROP REPORT.

STRAWBERRIES.

The value of the 1913 crop of strawberries amounted to \$52,615, of which \$18,058 is reported from northern Illinois, \$4,551 from central Illinois and \$30,006 from the southern division of the State.

WATERMELONS.

The value of watermelons sold in 1913 in northern Illinois is reported as \$25,638, in central Illinois \$6,419, and in southern Illinois \$8,112, a total value of \$40,169.

OTHER CROPS NOT NAMED.

There are a number of crops raised in this State which are cultivated only in limited localities, and are not of sufficient importance to be tabulated alone, but are of considerable value to producers.

The value of these miscellaneous crops for 1913 was reported as \$133,567.

BEES AND HONEY.

There were 248,980 pounds of honey produced in 1913.

The average price obtained was 16 cents per pound, making the total value \$39,747.

The number of hives reported for 1913 was 78,152.

The following table gives the amount and value of honey produced in this State during the past twenty-three years, together with the number of hives of bees:

Year.	Pounds produced.	Price per pound.	Value of product.	Number of hives of bees.
1891.....	821,678	\$0 14	\$112,934	120,252

LIVE STOCK.

HOGS.

The number of hogs in the State May 1, 1913, is reported as 1,087,614.

At the equalized value of \$2.75 per head, they were worth \$2,990,938.

The number marketed was 902,719, or 83 per cent of the whole number.

The average weight of those marketed was 203 pounds, giving a total gross weight of 183,197,325 pounds. The average price per cwt. of hogs marketed was \$7.65, their value at this rate being \$14,001,014.

The supply of hogs on hand December 1 was 80 per cent and the average price per cwt. on that date \$7.30.

Hog cholera was reported from nearly every county in the State.

The following table gives the number of hogs assessed and marketed in 1913, as well as their weight and value, for the past fifty-eight years:

Year.	Assessors' Returns.		Estimated per cent marketed.	Number fat hogs marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value hogs marketed.

BEEF CATTLE.

The number of cattle in the State May 1, 1913, is reported as 1,170,628. At the equalized value of \$9.77 per head, they were worth \$11,437,036.

Twenty-three per cent of the whole, 269,040, were marketed during the year. The average weight was 1,000 pounds, making the total weight 269,114,480 pounds.

The average price of those sold prior to December 1 was \$6.95 per cwt., a total value of \$18,701,639.

The supply of beef cattle on hand December 1, 1913, was 79 per cent, and the average price per cwt. on that date \$6.70.

The following table gives the number, weight and value of the cattle marketed in the State since 1855:

Year.	Assessors' Returns.		Estimated per cent marketed.	Number beef cattle marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value beef cattle marketed.
	Number.	Value.

HORSES.

The number of horses reported this year is 955,488 and their equalized value per head \$26.93, the total value amounting to \$25,731,292.

The number of colts reported foaled in 1912 was 83,860.

Distemper was reported from Macon, McDonough and Union counties.

Adams, Mason, Schuyler, Clay, Effingham, Fayette, Gallatin, Hardin, Jasper, Jefferson, Marion, Pope, Wayne and White counties report deaths of horses, caused by the eating of cornstalks, on which were poisonous fungus growth.

The following table gives the number of horses assessed in the State since 1855 and their equalized valuation, as well as the number of colts foaled each year since 1878:

Year.	Assessors' Returns.		Number colts foaled.
	Number.	Value.

SHEEP.

There were 301,555 sheep reported this year. Their equalized value is \$1.22 per head, making their total equalized value \$367,897.

Twenty-two per cent of the whole, or 66,340 were marketed.

Their total gross weight amounted to 6,719,578 pounds, an average weight of .101 pounds.

The average price received for those marketed prior to December 1 was \$.05 per cwt., making their total value \$340,182.

The supply of sheep on hand December 1 was 81 per cent as compared with 1912, and the average price per cwt. \$.495.

The following table gives the number, weight and value of the sheep marketed in the State since 1855:

Year.	Assessors' Returns.		Estimated per cent marketed.	Number fat sheep marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value sheep marketed.
	Number	Value.

CHEESE.

There were 618,864 pounds of cheese sold in 1913. The average price per pound was 20 cents, and the total value amounted to \$122,036.

The following table shows the quantity and value of the cheese sold in the State since 1876:

Year.	Pounds sold.	Price per pound.	Total value.
1877.....	4,502,671	\$0 12	\$540,320

Tables published elsewhere in this report give by counties the quantity and value of the dairy products of the State for 1913.

POULTRY AND EGGS.

The value of the poultry sold in 1913 in northern Illinois was \$1,030,290, in central Illinois \$682,272, and in southern Illinois \$555,758, a total value of \$2,268,320.

The total value of eggs sold in 1913 amounted to \$3,072,258, of which \$1,327,067 is reported from northern Illinois, \$679,749 from central Illinois, and \$1,065,442 from the southern division of the State.

SUMMARY.

The following table gives the value of the principal farm products and live stock of Illinois for the year 1913:

Corn	\$114,473,290
Winter wheat	13,731,843
Spring wheat	779,538
Oats	25,984,148
Rye	408,387
Barley	557,559
Buckwheat	14,680
Hay	19,752,396
Timothy seed	198,665
Clover seed	301,048
Hungarian and millet seed	18,846
Irish potatoes	2,699,485
Sweet potatoes	107,135
Turnips and other root crops	170,097
Broom-corn	399,377
Sorghum	177,991
Beans	38,379
Castor beans	133,395
Tobacco	26,945
Other crops not named	133,567
Grapes	14,123
Strawberries	52,615
Watermelons	40,169
Other fruits and berries	24,967
Wine	3,853
Honey	39,747
*Horses (equalized value)	25,731,292
*Beef cattle (equalized value)	11,437,036
Dairy cows	33,319,932
*Hogs (equalized value)	2,990,938
*Sheep (equalized value)	367,897
Wool	261,040
Milk sold	23,993,400
Cream sold	2,267,197
Butter sold	2,499,549
Cheese sold	122,036
Poultry sold	2,268,320
Eggs sold	3,072,258
Total	\$288,613,140

*NOTE—The equalized value as fixed by the State Board of Equalization represents but one-fifth of the actual value.

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season and immediately after harvest, when the information as to condition and yield is most needed, to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition of yield of the harvested crop. In reporting conditions, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or 10 per cent, is recorded 110; a decrease of 5 per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for the term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON, Secretary.

NOTE—The county clerks of the following counties, viz., Carroll, DeKalb, DuPage, Henderson, Iroquois, Kendall, Lee, Livingston, Putnam, Whiteside, and Winnebago, furnished the tabulated schedules of agricultural statistics of their counties in accordance with the law, and computations for these counties are based on their reports.

OF
CROP CORRESPONDENTS
STATE BOARD OF AGRICULTURE
FOR THE YEAR 1913
WITH DATE OF APPOINTMENT

ADAMS COUNTY—

- 1913. G. C. Dean, R. F. D., Adams.
- 1883. H. C. Cupp, Payson.
- 1888. C. H. Rankin, Payson.
- 1904. A. R. Wallace, Jr., Camp Point.

ALEXANDER COUNTY—

- 1907. G. W. Childress, Olive Branch.
- 1909. J. L. King, Elco.
- 1909. Herman Bunch, McClure.

BOND COUNTY—

- 1885. W. H. Taylor, Greenville.
- 1898. L. E. Alexander, Reno.
- 1908. N. Cowen, Sorento.

BOONE COUNTY—

- 1899. O. S. Cohoon, Belvidere.
- 1909. Phil H. Sanford, Garden Prairie.
- 1911. C. W. Colton, 1519 Pearl st., Belvidere.

BROWN COUNTY—

- 1889. W. B. Riggs, Mt. Sterling.
- 1909. E. F. Byrns, Mt. Sterling, R. F. D.
- 1909. C. J. Davis, Timewell.
- 1909. J. M. Cronin, Mt. Sterling, R. F. D.

BUREAU COUNTY—

- 1897. O. W. Mason, Buda.
- 1907. D. D. Draper, New Bedford.
- 1907. Frank J. Nye, Princeton.
- 1907. John Johnson, Walnut, R. F. D. No. 4.
- 1907. E. B. Anthony, Tiskilwa.

CALHOUN COUNTY—

- 1881. M. A. Kamp, Kampsville.
- 1909. Wm. Franks, Batchtown.

CARROLL COUNTY—

- 1909. Wm. Phillips, Mt. Carroll.
- 1909. Geo. Lang, Chadwick.

CASS COUNTY—

- 1903. M. L. Crum, Virginia.

CHAMPAIGN COUNTY—

- 1908. Dr. F. M. Conkey, Homer.
- 1907. R. E. Chambers, Sadorus.
- 1907. Reuben Roughton, Rantoul.

ILLINOIS CROP REPORT

FOR

May 1, 1914

SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE,
SPRINGFIELD, May 1, 1914.

The information contained in this report was obtained from the reports of correspondents mailed to this department the first day of May.

The correspondents are, as a rule, representative farmers of extended experience who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-seven years, and their estimates for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred and fifty and are so distributed over the State as to fairly represent each locality.

The State covers an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

WINTER WHEAT.

The area winter-killed or destroyed by floods or Hessian fly the past season was 3 per cent of the area seeded last fall, leaving 1,129,273 acres for harvest.

The condition of the growing crop on May 1 was excellent, being 94 per cent of normal in northern Illinois and 101 per cent in both the central and southern divisions, a State average of 99 per cent, which is 7 points better than the May 1 condition of a year ago.

Hessian fly is reported from Putnam, Adams, Fulton, Jersey, Macoupin, McDonough, Shelby, Fayette, Madison, Monroe and Wabash counties.

SPRING WHEAT.

A decrease of 3 per cent is reported in the area seeded to spring wheat this year and the May 1 condition is reported as 99 per cent of normal.

OLD WHEAT.

Of the 18,063,415 bushels of wheat raised in Illinois last year, it is estimated that there was on May 1, 1,146,215 bushels or about 6 per cent in the producers' hands.

Northern Illinois reports 9 per cent in first hands, central Illinois 5 per cent and southern Illinois 7 per cent.

The following table gives the amount of old wheat in first hands May 1, since and including 1880:

YEAR PRODUCED.	Crop in bushels.	Per cent crop on hand following May 1.	Amount crop in producers' hands following May 1.	Surplus wheat above seed and consumption at harvest.	Deficit at harvest.
1880	56,508,309	15	8,476,246	39,851,883

WINTER RYE.

The area winter-killed the past season was a little over 1 per cent of that seeded last fall, leaving 35,115 acres for harvest.

The May 1 condition of winter rye was 98 per cent of normal in northern Illinois, 102 per cent in central Illinois and 99 per cent in the southern division of the State.

OATS.

There is a decrease of 4 per cent in the area seeded to oats for the 1914 crop as compared with last year.

The May 1 condition of oats is 90 per cent of normal, being 93 per cent in northern Illinois, 91 per cent in central Illinois and 87 per cent in the southern division of the State.

BARLEY.

A decrease of 4 per cent is reported in the area devoted to barley in the northern division of the State and its May 1 condition is 97 per cent of normal.

But very little barley is grown in the central and southern divisions of the State.

OLD CORN.

The Illinois corn crop of 1913 was reported as 181,300,629 bushels.

Of this amount 24 per cent, or 44,093,074 bushels, was in the producers' hands on May 1.

DeKalb county produced the largest corn crop of any county in the State in 1913, that of 8,234,440 bushels.

The following table gives the amount of old corn in the producers' hands May 1, the past thirty-five years, as well as the extent of the crop produced each year.

YEAR PRODUCED.	Crop.	Per cent corn on hand following May 1.	Bushels corn in producers' hands following May 1.
1879	305,913,277	32	99,229,889

Average	234,667,021	29	69,062,495

MEADOWS.

There is a decrease of 7 per cent in the area of meadows this year as compared with 1913.

Meadows show rather a slow growth in northern Illinois, due to lack of sufficient rainfall in April.

Much clover was killed by the drought of 1913, but timothy hay is in excellent condition.

The condition of meadows May 1 is reported as 88 per cent of normal in northern Illinois, 91 per cent in central Illinois and 95 per cent in southern Illinois.

PASTURES.

The area devoted to pastures is 96 per cent as compared with last year.

Rain is needed in northern Illinois where the condition is reported as 88 per cent of normal, in central Illinois 92 per cent and 95 per cent in the southern division of the State.

SPRING PLOWING.

About two-thirds of the entire amount of spring work is usually completed by May 1. This year 58 per cent of the work is reported completed on that date.

The condition of the soil is reported as mellow and easily worked.

LIVE STOCK.

HORSES.

The number of horses reported May 1 is 97 per cent as compared with 1913 and their May 1 condition is 96 per cent of normal.

Distemper is reported from Grundy, Henry, Iroquois, Knox, McHenry, Brown, Christian, Macon, Schuyler, Vermillion, Massac and Randolph counties.

MULES.

The number of mules reported May 1 is 96 per cent as compared with last year, and their May 1 condition is 97 per cent of normal.

CATTLE.

The number of cattle this year is 91 per cent as compared with 1913 and their May 1 condition 95 per cent of normal.

DAIRY COWS.

The number of dairy cows is reported as 98 per cent as compared with last year, and their May 1 condition is 97 per cent of normal.

HOGS.

The number of hogs on hand May 1 is reported as 86 per cent as compared with 1913 and their May 1 condition is 95 per cent of normal.

Hog cholera is reported from DeKalb, Henry, Marshall, Adams, Brown, Edgar, Fulton, McDonough, Schuyler and Hardin counties.

SHEEP.

The number of sheep reported is 88 per cent as compared with last year and their condition on May 1, 96 per cent of normal.

FRUIT.

The fruit prospect on May 1 was most favorable for an abundant yield of fruit, with the exception of apples.

Frost injured peaches in several of the counties of the southern division of the State.

WAGES PAID FARM HANDS.

The wages paid farm hands vary but little from last year.

The supply of farm help is reported as 8 per cent below the demand.

The average wages paid farm hands for the past thirty-five years is given in the following table:

DIVISION.	PER DAY.		PER MONTH.	
	With board.	Without board.	With board.	Without board
Northern	\$1 10	\$1 45	\$22 35	\$30 45
Central	95	1 20	19 85	26 45
Southern	75	1 00	16 30	22 55
Average	\$0 95	\$1 20	\$19 50	\$26 50

The wages paid farm help in the three divisions of the State, during the past thirty-five years, are given in the following tables:

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimate of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not intended that these reports will exactly coincide with the official assessor's returns, but they do represent the condition or yield of the various crops, etc., at the date given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON, Secretary.

ILLINOIS CROP REPORT

FOR

JUNE 20, 1914

Synopsis of the Reports of Correspondents Upon the Acreage and Yield of Crops, Etc.

Illinois State Board of Agriculture
Springfield, June 20, 1914.

The information contained in this report was obtained from the reports of correspondents mailed to this office the twentieth of June.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-three years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred and fifty, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

CORN.

A decrease of 1 per cent is reported in the area planted to corn for the 1914 crop, Northern Illinois reporting an increase of 2 per cent in the area as compared with 1913, Central Illinois a decrease of 1 per cent and Southern Illinois a decrease of 4 per cent.

The June 20th condition of corn is 92 per cent of normal, which is 15 points better than the June 20th condition of a year ago.

Very little injury to corn by insects is reported from Northern Illinois, but cut worms, root lice, army worms, and chinchbugs are reported from the Central and Southern Divisions of the State.

The quality of seed corn is excellent, being 98 per cent of normal.

Hamilton County reports the earliest appearance of corn above ground, April 5th, but most of the corn appeared the first ten days of May.

BROOM CORN.

The area of broom corn is 88 per cent as compared with 1913 and the June 20th condition 89 per cent of normal.

SORGHUM.

A decrease of 8 per cent in the area of sorghum is reported this year.

In Northern Illinois its June 20th condition is 92 per cent of normal, in Central Illinois 87 per cent, and in Southern Illinois 82 per cent.

WINTER WHEAT.

The June 20th condition of winter wheat in Northern Illinois was 96 per cent of normal, in Central Illinois 92 per cent, and in Southern Illinois 90 per cent, a State average of 93 per cent.

SPRING WHEAT.

A decrease of 3 per cent is reported in the area of spring wheat in Northern Illinois, where most of this crop is raised, and its June 20th condition is 97 per cent of normal.

OATS.

The unseasonable hot weather of May and June, together with the deficiency of moisture during these two months, have caused this crop to deteriorate from 90 per cent of normal on May 1st to 61 per cent on June 20th.

In Northern Illinois the condition of oats on June 20th was 91 per cent of normal, in Central Illinois 61 per cent, and in Southern Illinois but 33 per cent.

RYE.

The condition of rye on June 20th was 93 per cent of normal, being 97 per cent in Northern Illinois, 95 per cent in Central Illinois, and 86 per cent in the Southern Division of the State.

BARLEY.

The June 20th condition of barley was 90 per cent of normal in Northern and Southern Illinois, and 82 per cent in the Central Division of the State.

MEADOWS.

There is a decrease of 7 per cent in the area of meadows as compared with 1913. Meadows have been greatly injured by drought and their June 20th condition is but 64 per cent of normal, a decrease of 27 points since the May 1st report.

CLOVER.

The area of clover is 74 per cent as compared with 1913.

In Northern Illinois the June 20th condition is 87 per cent of normal, in Central Illinois 62 per cent, and in Southern Illinois 55 per cent.

ALFALFA.

The condition of alfalfa on June 20th is reported from seventy-six counties of the State.

Northern Illinois reports the condition as 100 per cent of normal, Central Illinois 88 per cent and Southern Illinois 74 per cent.

HUNGARIAN AND MILLET.

In Northern and Central Illinois the area of Hungarian and millet is 88 per cent, as compared with last year, and 91 per cent in the Southern Division of the State.

PASTURES.

The area devoted to pastures is 4 per cent less than in 1913.

In Northern Illinois their June 20th condition is 91 per cent of normal, in Central Illinois 67 per cent, and in Southern Illinois 55 per cent, a State average of 71 per cent.

Pastures have deteriorated 21 points since May 1, drought during May and June in Central and Southern Divisions of the State having cut short their growth.

IRISH POTATOES.

A decrease of 4 per cent is reported in the area devoted to Irish potatoes as compared with last year.

In Northern Illinois their June 20th condition was 92 per cent of normal, 77 per cent in Central Illinois and 69 per cent in Southern Illinois, a State average of 79 per cent.

SWEET POTATOES.

There is a decrease of 7 per cent in the area of sweet potatoes as compared with last year, and their June 20th condition is 85 per cent of normal.

FIELD BEANS.

The area of field beans is 87 per cent as compared with 1913 and their June 20th condition is 86 per cent of a seasonable average.

COW PEAS.

The area of cow peas is 100 per cent, as compared with last year in Northern Illinois, 91 per cent in Central Illinois and 87 per cent in the Southern Division of the State.

TOBACCO.

No reports on the area or condition of tobacco were received from Northern and Central Illinois. In Southern Illinois the area is 72 per cent as compared with last year, and the June 20th condition is 67 per cent of normal.

FRUIT.

According to the reports of our correspondents, the apple crop will be light and the peach crop about half an average yield.

Hot, dry weather cut short the yield of small fruit.

CHERRIES.

In Northern Illinois the yield of cherries was 84 per cent of a seasonable average, in Central Illinois 83 per cent, and in Southern Illinois 74 per cent.

STRAWBERRIES.

The yield of strawberries in Northern Illinois was 80 per cent of a seasonable average, in Central Illinois 56 per cent and in Southern Illinois 64 per cent.

RASPBERRIES.

The yield of raspberries was 88 per cent of a seasonable average in Northern Illinois, 70 per cent in Central Illinois and 72 per cent in the Southern Division of the State.

GOOSEBERRIES.

Northern Illinois reports the yield of gooseberries as 89 per cent of a seasonable average, Central Illinois 82 per cent and Southern Illinois 80 per cent.

CURRANTS.

The yield of currants is 88 per cent of a seasonable average in Northern Illinois, 77 per cent in Central Illinois, and 75 per cent in the Southern Division of the State.

VINEYARDS.

The area of vineyards as compared with 1913 is 98 per cent in Northern Illinois, 97 per cent in Central Illinois and 95 per cent in the Southern Division of the State. The June 20th condition of vineyards is reported as 91 per cent of normal.

YOUNG LIVE STOCK.—PIGS.

The number of pigs reported this year is 92 per cent as compared with 1913 and their June 20th condition is 95 per cent of normal.

LAMBS.

The number of lambs is 88 per cent as compared with last year and their condition on June 20th was 97 per cent of normal.

CALVES.

The number of calves reported this year is 96 per cent as compared with last year and their June 20th condition as 97 per cent of normal.

COLTS.

The number of colts foaled this year as compared with 1913 is 93 per cent and their June 20th condition is 96 per cent of normal.

The average value of colts at weaning time is reported as \$54 in Northern Illinois, \$57 in Central Illinois and \$56 in Southern Illinois.

The number of colts lost prior to weaning is reported as 8 per cent in Northern Illinois and 7 per cent in the Central and Southern Divisions of the State.

The average cost of service of stallions in Northern Illinois is reported as \$15, in Central Illinois \$14, and in Southern Illinois \$11.

WOOL.

The wool clip of 1914 was 95 per cent as compared with 1913 in Northern Illinois, and 84 per cent in the Central and Southern Divisions of the State.

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimate of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessor's returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON,

Secretary.

ILLINOIS CROP REPORT

FOR

AUGUST 1, 1914

SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

Illinois State Board of Agriculture,
Springfield, August 1, 1914.

The information contained in this report was obtained from the reports of correspondents mailed to this office the first of August.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for many years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number three hundred and fifty and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

WHEAT.

The area seeded to wheat for the 1914 crop was 1,221,066 acres, all of which was winter wheat, with the exception of 51,694 acres.

Four per cent of the winter wheat area was winter-killed or otherwise destroyed, leaving 1,175,311 acres of wheat (spring and winter) for harvest.

The average yield per acre was 27 bushels in northern Illinois, 20 bushels in central Illinois and 15 bushels in southern Illinois, a State average of 18 bushels, the total yield amounting to 20,768,310 bushels.

The ruling price on August 1 was 75 cents per bushel, the total value of the crop at this price amounting to \$15,589,396.

CROP REPORT.

The following table gives the area, yield and value of the wheat crop of the State during the past fifty-four years:

WHEAT (SPRING AND WINTER).

Year.	Number of acres harvested.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

WHEAT CONSUMPTION.

In estimating the amount of wheat required in the State for seed and bread, it is necessary to consider the entire area seeded, instead of that harvested, as the amount required for seed is based on the area seeded last year, which was 1,221,066 acres. As one and one-third bushels per acre is used for seed, it will require 1,628,095 bushels to seed next year's crop.

Allowing four bushels per capita for food, it takes, according to the 1910 census, which gives Illinois 5,638,591 inhabitants, 22,554,364 bushels for that purpose; so that 24,182,459 bushels will be required for home use (seed and consumption).

As but 20,768,310 bushels were raised in the State this year, it will be necessary to import 3,414,149 bushels or equivalent in flour to fill the demand for the home market.

OATS.

The area seeded to oats for 1914 was reported as 2,547,135 acres, of which 1,595,034 acres were reported from northern Illinois, 821,124 acres from central Illinois and 130,977 acres from the southern division of the State.

In northern Illinois, where there was sufficient rainfall, the yield of oats is reported as 39 bushels per acre. The prolonged drought in the central and southern divisions of the State cut short the yield, central Illinois reporting 29 bushels and southern Illinois but 7 bushels per acre, a State average of 34 bushels.

Very little oats was threshed in southern Illinois, most of the crop being cut with mower or pastured.

The total yield amounted to 87,435,362 bushels and the value of the crop at the average price of 32 cents per bushel, amounted to \$28,258,942.

The following table gives the area, yield and value of the oats crop of the State during the past fifty-four years:

Year.	Number of acres.	Average yield per acre.	Busheis produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.
1860	543,572	28	15,220,029	\$0 26	\$ 3,957,207	\$ 7 28	\$9 40	\$ 5,109,577	\$1,152,370

A table published elsewhere in this report gives the area, yield and value of the oats crop in each county in the State this year.

WINTER RYE.

A decrease of 6 per cent is noted in the area of winter rye, 34,884 acres being reported.

The average yield per acre was 19 bushels and the total yield amounted to 651,138 bushels.

The average price on August 1 was 63 cents per bushel and the total value of the crop amounted to \$411,488.

The following table gives the area, yield and value of the past fifty-four rye crops grown in the State.

Year.	Number of acres.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

A table published elsewhere in this report gives the area, yield and value of rye in each county in the State.

BARLEY.

There are 36,210 acres of barley reported this year. The average yield was 31 bushels per acre and the total yield amounted to 1,121,497 bushels.

The ruling price on August 1 was 51 cents per bushel and the value of the crop amounted to \$567,547.

The following table gives the area, yield and value of the last fifty-four barley crops produced in the State:

Year.	Number of acres harvested.	Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

In a table published elsewhere in this report will be found the area, yield and value of the barley crop in the State by counties.

HAY.

The area devoted to meadows is reported as 1,570,488 acres.

In northern Illinois the yield per acre is reported as $1\frac{1}{4}$ tons and in central and southern Illinois, where meadows were greatly damaged by drought, the yield was $\frac{3}{4}$ and $\frac{1}{2}$ ton, respectively.

The total yield was 1,492,180 tons and the value of the crop at the average price of \$12.90 per ton amounted to \$19,247,575.

The August 1 condition of clover was 88 per cent of normal and the average yield was 1 ton per acre.

The following table gives the area, yield and value of the last fifty-four hay crops produced in this State:

Year.	Number of acres harvested.	Average yield per acre—tons.	Tons produced.	Price per ton.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

CORN.

There were 6,636,460 acres planted to corn for the crop of 1914, northern Illinois reporting 2,858,001 acres, central Illinois 3,008,981 acres and northern Illinois 768,478 acres.

With but few exceptions, drought has seriously damaged corn in every county and its August 1 condition in northern Illinois is reported as 80 per cent, in central Illinois 64 per cent and in southern Illinois 37 per cent, a State average of 61 per cent and a decrease of 31 points since the June 20th report.

BROOM CORN.

No report on the condition of broom corn was made from northern Illinois; in central Illinois the August 1 condition was 81 per cent of normal and in southern Illinois 47 per cent.

SORGHUM.

The condition of sorghum on August 1 was 82 per cent of normal in northern and central Illinois and 45 per cent in the southern division of the State.

PASTURES.

There is a decrease of 73,857 acres in the area of pastures as compared with 1913, the total area being 3,448,109 acres.

Owing to the heat and drought, pastures are practically burnt up and have deteriorated from 71 per cent of normal on June 20th to 43 per cent on August 1, their condition on that date in northern Illinois being 61 per cent of normal, in central Illinois 40 per cent and in southern Illinois 27 per cent.

IRISH POTATOES.

The August 1 condition of Irish potatoes is reported as 71 per cent of normal in northern Illinois, 38 per cent in central Illinois and 25 per cent in the southern division, a State average of 45 per cent and a decrease of 34 points since the June 20th report.

SWEET POTATOES.

The condition of sweet potatoes on August 1 is 78 per cent of normal in northern Illinois, 66 per cent in central Illinois and 42 per cent in southern Illinois, a State average of 62 per cent.

BUCKWHEAT.

No report on buckwheat was received from northern Illinois. In central Illinois the area of this crop is 83 per cent, as compared with last year, and its August 1 condition as 81 per cent of normal.

In southern Illinois the area is 87 per cent, as compared with 1913, and its condition on August 1 was 58 per cent of normal.

TURNIPS AND OTHER ROOT CROPS.

The area of turnips and other root crops is 90 per cent, as compared with 1913, and their August 1 condition was 67 per cent of normal.

CASTOR BEANS.

No report is made on this crop from northern and central Illinois. Southern Illinois reports the August 1 condition as 65 per cent of normal.

TOBACCO.

No report was made on tobacco from the northern and central divisions of the State. Southern Illinois reports the condition of tobacco on August 1 as 47 per cent of normal.

COW PEAS.

The condition of cow peas on August 1 is reported as 87 per cent of normal in northern Illinois, 72 per cent in central Illinois and 46 per cent in the southern division of the State.

FIELD BEANS.

The August 1 condition of this crop is 66 per cent of normal, being 97 per cent in northern Illinois, 60 per cent in central Illinois and 42 per cent in the southern division of the State.

FRUIT.

With the exception of grapes, a light yield of fruit is reported this year.

APPLES.

The August 1 condition of apples was 22 per cent of normal in northern Illinois, 29 per cent in central Illinois and 43 per cent in the southern division of the State.

PEACHES.

The condition of peaches on August 1 was 49 per cent of normal, being 34 per cent in northern Illinois, 55 per cent in central Illinois and 57 per cent in southern Illinois.

PEARS.

The August 1 condition of pears is 43 per cent of normal in northern Illinois, 56 per cent in central Illinois and 49 per cent in the southern division of the State.

PLUMS.

The condition of plums on August 1 was 38 per cent of normal in northern Illinois, 59 per cent in central Illinois and 77 per cent in southern Illinois, a State average of 58 per cent.

GRAPES.

The condition of grapes on August 1 was 80 per cent of normal, being 80 per cent in northern Illinois, 79 per cent in central Illinois and 82 per cent in the southern division of the State.

BLACKBERRIES.

The blackberry crop this year was 70 per cent of an average yield in northern Illinois, 45 per cent in central Illinois and 57 per cent in the southern division of the State.

QUINCES.

There are not many quinces raised in Illinois and their August 1 condition is 67 per cent of normal.

LIVE STOCK.

Farm animals are reported in good condition, but thin on account of shortage of pastures.

Hog cholera is reported from Carroll, Henderson, Kankakee, Mercer, Rock Island, Adams, Brown, Edgar, Fulton and Sangamon counties, and pinkeye from Kankakee and Pope counties.

DRAIN TILE.

The number of feet of drain tile reported in the State amounts to 752,400,179 feet, which gives an average of 29 feet to each acre of cultivated land in Illinois.

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting conditions, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent, is recorded 110; a decrease of five per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON,
Secretary.

NOTE.

The county clerks of the following counties, viz.: DuPage, Henderson, Iroquois and Lee furnished the tabulated schedules of their counties in accordance with the law, and computations for those counties are based on their reports.

ILLINOIS CROP REPORT

FOR

DECEMBER 1, 1914.

SYNOPSIS OF THE REPORTS OF CORRESPONDENTS UPON THE ACREAGE AND YIELD OF CROPS, ETC.

ILLINOIS STATE BOARD OF AGRICULTURE,
SPRINGFIELD, December 1, 1914.

The information contained in this report as to the acreage of crops and number of head of live stock was obtained from the reports of assessors made to this Department as required by law.

The data in regard to yield per acre, price of crops and value of crops and live stock was obtained from crop correspondents, who number three hundred and forty-four and represent every section of the State.

The correspondents are, as a rule, representative farmers of extended experience, who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past thirty-seven years, and their estimates, for a term of years, when compared with subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The State covers such an extended area from north to south (385 miles), and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

WINTER GRAIN.

WHEAT.

An increase of 6 per cent in the area seeded to wheat for the 1915 crop is reported.

Northern Illinois reports 41,685 acres, central Illinois 570,838 acres and southern Illinois 627,057 acres, a total area of 1,239,580 acres.

The condition of the growing crop on December 1 was 95 per cent of normal, being 96 per cent in northern Illinois and 94 per cent in both the central and southern divisions of the State.

The following counties reported Hessian fly in wheat: Iroquois, Kankakee, Adams, Clark, Coles, Cumberland, Douglas, Edgar, Hancock, Jersey, Logan, Macon, Macoupin, McLean, Menard, Montgomery, Morgan, Moultrie, Sangamon, Schuyler, Shelby, Tazewell, Alexander, Bond, Clay, Clinton, Effingham, Fayette, Gallatin, Jackson, Jasper, Lawrence, Madison, Marion, Massac, Randolph, Richland, St. Clair, Union, Wabash, Washington and Williamson.

RYE.

A decrease of 3 per cent is noted in the area seeded to rye for the 1915 crop, 33,828 acres being reported.

The condition of the crop on December 1 was 96 per cent of normal in both the northern and central divisions and 97 per cent in the southern division of the State.

CORN.

The area in corn for the 1914 crop was reported as 6,633,356 acres.

Northern Illinois reported 2,855,897 acres, central Illinois 3,008,981 acres and southern Illinois 768,478 acres.

The yield per acre reported in northern Illinois was 33 bushels, in central Illinois 30 bushels and in southern Illinois 17 bushels, a State average of 30 bushels.

The total corn crop of the State amounted to 197,710,927 bushels.

The ruling price of corn on December 1 was 59 cents per bushel in northern Illinois, 58 cents in central Illinois and 68 cents in southern Illinois, and the total value of the 1914 crop amounted to \$117,281,928.

The quality of the grain was but 83 per cent of normal, being 99 per cent in northern Illinois, 84 per cent in central Illinois and 65 per cent in southern Illinois.

The yield and quality of corn in the central and southern divisions of the State were affected unfavorably by drought and chinch bugs.

The area, yield and value of the corn crop of the State for the past fifty-five years is given in the following table:

Year.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel—cents.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

BROOM-CORN.

The area of broom-corn was reported as 9,291 acres.

The total yield amounted to 5,766,000 pounds, an average yield of 667 pounds.

The ruling price December 1 was \$87 per ton and the total value of the crop amounted to \$249,411.

The following table gives the area, yield and value of the broom-corn crop of Illinois since 1876:

Year.	Acreage.	Av. yield per acre— pounds.	Total yield— pounds.	Price per ton.	Value of crop.

SORGHUM.

There were 3,677 acres of sorghum reported in 1914. The average yield per acre was 113 gallons and the total yield amounted to 417,907 gallons.

The ruling price on December 1 was 59 cents per gallon, the total value of the product amounting to \$245,921.

The following table gives the area, yield and value of the sorghum crops produced in the State since 1876:

Year.	Acreage.	Av. yield per acre— gallons.	Total number of gallons.	Price per gallon.	Value of crop
1877.....	19,335	63	1,237,164	\$0 42	\$515,409

BUCKWHEAT.

The area of buckwheat is reported as 1,077 acres.

The average yield per acre was 18 bushels and the total yield amounted to 18,940 bushels.

The total value of the crop amounted to \$17,722, an average price of 95 cents per bushel.

The following table gives the area, yield and value of the buckwheat crop in this State for the past thirty-eight years:

Year.	Acreage.	Av. yield per acre— bushels.	Total number of bushels.	Price per bushel.	Value of crop.
1877.....	15,880	13	207,693	\$0 73	\$151,612

TIMOTHY SEED.

There were 57,405 bushels of timothy seed reported produced in 1914.

The average price per bushel was \$2.85, and the total value of the crop at this price amounted to \$165,219.

The following table gives the amount and value of the crop in this State since and including 1877.

Year.	Bushels pro- duced.	Price per bushel.	Value of crop.
1877.....	483,571	\$1 25	\$ 604,464

HUNGARIAN AND MILLET SEED.

There were 15,362 bushels of Hungarian and millet seed produced in 1914.

The total value of the crop amounted to \$15,258, an average price of \$1.00 per bushel.

The following table gives the yield and value of this crop since 1876:

Year.	Bushels pro- duced.	Price. per bushel.	Value of crop.
1877.....	17,463	\$0 65	\$10,701

ALFALFA.

The area devoted to this crop is reported as 19,350 acres in northern Illinois, 9, 770 acres in central Illinois and 8,640 acres in southern Illinois, a total area of 37,760 acres, which is double the 1913 area.

The price of alfalfa is reported as \$14.40 per ton in northern Illinois, \$16.80 in central Illinois and \$17.60 in southern Illinois.

BEANS.

There were 779 acres reported in beans in 1914. The average yield was 10 bushels per acre and the total yield amounted to 7,809 bushels.

The ruling price December 1 was \$2.80 per bushel and the total value of the crop amounted to \$21,836.

The following table gives the area, yield and value of the 1914 crop of beans, together with those of thirty-seven years preceding:

Year.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.

TOBACCO.

The area in tobacco in 1914 was reported as 480 acres. The average yield per acre was 652 pounds and the total yield amounted to 313,200 pounds.

The total value of the crop at the ruling price of 11 cents per pound on December 1, was \$34,375.

The following table gives the area, yield and value of the crop in this State since 1876:

Year.	Acreage.	Av. yield per acre— pounds.	Total number of pounds.	Price per pound.	Value of crop.

IRISH POTATOES.

The area devoted to Irish potatoes in 1914 was reported as 65,236 acres.

The average yield per acre was 71 bushels and the total yield amounted to 4,626,540 bushels.

The average price per bushel on December 1 was 60 cents and the total value of the crop amounted to \$2,852,443.

The following table gives the area, yield and value of the Irish potato crops of the State since 1859:

Year.	Number of acres.	Average yield per acre.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

SWEET POTATOES.

The area devoted to sweet potatoes in 1914 was reported as 1,820 acres.

The total yield amounted to 127,062 bushels, an average of 70 bushels per acre.

The average price per bushel was 95 cents and the total value of the crop amounted to \$118,754.

The following table gives the area, yield and value of the sweet potato crop of the State for the past thirty-eight years:

Year.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877.....	2,355	63	148,270	\$0 85	\$126,092

TURNIPS AND OTHER ROOT CROPS.

A decrease of 10 per cent is reported in the area of turnips and other root crops, 247 acres being reported.

The average value per acre is \$530.06, and the total value \$130,925.

The average yield per acre of turnips was 99 bushels.

The following table gives the acreage and value of turnips and other root crops grown in the State during the past thirty-eight years:

Year.	Acreage.	Value per acre.	Value of crop.
1877.....	7,056	\$ 39 55	\$279,136
1878.....	3,775	40 85	154,140

FRUIT.

APPLES.

A light crop of apples was reported this year, the yield being but half of normal. The price obtained for winter apples on December 1 was reported as 90 cents per bushel.

PEACHES.

Northern Illinois reports the yield of peaches 52 per cent as compared with 1913, central Illinois 85 per cent and southern Illinois 100 per cent.

The average price obtained for peaches in their season was reported as \$1.20 per bushel.

PEARS.

The yield of pears in 1914 in northern Illinois was 67 per cent as compared with 1913, in central Illinois 79 per cent and in southern Illinois 92 per cent.

The average price of pears in their season was 95 cents per bushel.

GRAPES.

There were 582,261 pounds of grapes produced in 1914. Of this amount 455,977 pounds were produced in the southern division of the State.

The total value of the crop is reported as \$13,495, an average price of 2 cents per pound.

The following table gives particulars concerning the grape crop of the State for the past thirty-eight years:

Year.	Pounds pro- duced.	Price per pound.	Value of crop.
1877.....	3,002,748	\$0 03	\$ 92,782

WINE.

The area in vineyards was reported as 666 acres, a 3 per cent decrease from the 1913 area.

There were 4,103 gallons of wine produced, the total value of which was \$3,832, an average price of 95 cents per gallon.

The following table gives the number of gallons of wine and the value thereof during the past thirty-eight years:

Year.	Acceage.	Av. yield per acre— gallons.	Number of gallons. produced.	Price per gallon.	Value of crop.

CROP REPORT.

STRAWBERRIES.

The value of the 1914 strawberry crop is reported as \$45,348, of which amount northern Illinois reports \$15,184, central Illinois \$3,549 and southern Illinois \$26,615.

WATERMELONS.

Northern Illinois reports the value of watermelons sold in 1914 as \$21,963, central Illinois \$6,319 and southern Illinois \$7,903, a total value of \$36,185.

OTHER CROPS NOT NAMED.

There are a number of crops raised in this State which are cultivated only in limited localities, and are not of sufficient importance to be tabulated alone but are of considerable value to producers.

The value of these miscellaneous crops for 1914 was reported as \$127,212.

BEES AND HONEY.

There were 223,747 pounds of honey produced in Illinois in 1914. The average price obtained was 16 cents per pound, making the total value \$36,464.

The number of hives reported in 1914 was 78,250.

The following table gives the amount and value of honey produced in this State during the past twenty-four years, together with the number of hives of bees:

Year.	Pounds produced.	Price per pound.	Value of product.	Number of hives of bees.
1891.....	821,678	\$0 14	\$112,934	120,252

LIVE STOCK.

HOGS.

The number of hogs in the State May 1, 1914, is reported as 986,285. At the equalized value of \$2.60 per head, they were worth \$2,564,341.

The number marketed was 813,616 or 83 per cent of the whole number.

The average weight of those marketed was 208 pounds, giving a total gross weight of 170,017,214 pounds.

The average price per cwt. of hogs marketed was \$7.50, their value at this price being \$12,761,801.

The supply of hogs on hand December 1 was 87 per cent and the average price per cwt. on that date \$7.00.

Hog cholera was reported prevalent in the northern and central divisions, but very few cases are noted in the southern division of the State.

The following table gives the number of hogs assessed and marketed in 1914, as well as their weight and value, for the past fifty-nine years:

Year.	Assessors' Returns.		Estimated per cent marketed.	Number fat hogs marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value hogs marketed.
	Number.	Value.

BEEF CATTLE.

The number of cattle in the State May 1, 1914, is reported as 1,084,341. At the equalized value of \$10.21 per head, they were worth \$11,071,122.

Twenty-three per cent of the whole, 249,400, were marketed during the year. The average weight was 1,034 pounds, making the total weight 257,835,180 pounds.

The average price of those sold prior to December 1 was \$7.40, a total value of \$19,100,338.

The supply of beef cattle on hand December 1, 1914, was 82 per cent and the average price per cwt. on that date \$7.00.

Foot and mouth disease was reported from thirty-seven counties of the northern and central divisions of the State.

The following table gives the number, weight and value of the cattle marketed in the State since 1855:

Year.	Assessors' Returns.		Estimated per cent marketed.	Number beef cattle marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value beef cattle marketed.
	Number.	Value.

DAIRY COWS.

There were 493,363 dairy cows reported in Illinois in 1914. The average value per head was \$70, making the total value \$34,775,854.

The following table gives the number and value of the dairy cows kept in Illinois since 1878:

Year.	Number.	Av. value per head.	Total value.
1879.....	571,628	\$31 00	\$17,720,468
1880.....	613,738	31 00	19,035,878
1881.....	625,410	31 00	19,387,710
1882.....	581,578	41 00	23,809,661

HORSES.

The number of horses reported this year is 947,807, and their equalized value \$20.93, the total value amounting to \$25,524,443.

The number of colts reported foaled in 1913 was 84,123.

Twenty counties report loss of horses, due to cornstalk disease.

The following table gives the number of horses assessed in the State since 1855 and their equalized valuation, as well as the number of colts foaled each year since 1878:

Year.	Assessors' Returns.		Number colts foaled.
	Number.	Value.

SHEEP.

There were 260,840 sheep reported this year. Their equalized value is \$1.18 per head, making their total equalized value \$307,791.

Twenty-two per cent of the whole or 57,184 were marketed.

Their total gross weight amounted to 5,897,739 pounds, an average weight of 103 pounds.

The average price received for those marketed prior to December 1, was \$5.55, making their total value \$328,263.

The supply of sheep on hand was 50 per cent and the average price per cwt. \$5.60.

The following table gives the number, weight and value of the sheep marketed in the State since 1855:

Year.	Assessors' Returns.		Estimated per cent marketed.	Number fat sheep marketed.	Av. gross weight per head.	Total gross weight.	Value per 100 lbs. gross.	Total value sheep marketed.
	Number.	Value.

DAIRY PRODUCTS.

MILK.

There were 101,538,057 gallons of milk sold in the State in 1914.

The average price was 19 cents per gallon and the total value amounted to \$19,110,871.

The following table gives the amount, price and value of the milk sold in the State for the past thirty-eight years:

Year.	Gallons sold.	Price per gallon.	Total value.
1877.....	17,124,506	\$0 11 ¹ / ₂	\$ 1,912,236

Tables published elsewhere in this report give by counties the quantity and value of the dairy products of the State for 1914.

POULTRY AND EGGS.

The value of the poultry sold in 1914 amounted to \$2,267,410, of which \$1,030,907 is reported from northern Illinois, \$676,664 from central Illinois and \$559,839 from southern Illinois.

The value of eggs sold in 1914 in northern Illinois is reported as \$1,212,609, in central Illinois \$671,589, and in southern Illinois \$1,068,600, a total value of \$2,952,798.

SUMMARY.

The following table gives the value of the principal farm products and live stock of Illinois for the year 1914:

Corn	\$117,281,928
Winter wheat	14,689,169
Spring wheat	900,227
Oats	28,258,942
Rye	411,488
Barley	567,547
Buckwheat	17,722
Hay	19,247,575
Timothy seed	165,219
Clover seed	381,075
Hungarian and millet seed.....	15,258
Irish potatoes	2,852,443
Sweet potatoes	118,754
Turnips and other root crops.....	130,925
Broom-corn	249,411
Sorghum	245,921
Beans	21,836
Castor beans	133,181
Tobacco	34,372
Other crops not named.....	127,212
Grapes	13,495
Strawberries	45,348
Watermelons	36,185
Other fruits and berries.....	19,801
Wine	3,832
Honey	36,464
*Horses (equalized value).....	25,524,443
*Beef cattle (equalized value).....	11,071,122
Dairy cows	34,775,854
*Hogs (equalized value)	2,564,341
*Sheep (equalized value)	307,791
Wool	248,314
Milk sold	19,110,871
Cream sold	2,464,120
Butter sold	2,377,089
Cheese sold	111,654
Poultry sold	2,267,410
Eggs sold	2,952,798
Total	\$289,781,140

*NOTE—The equalized value as fixed by the State Board of Equalization represents but one-fifth of the actual value.

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season and immediately after harvest, when the information as to condition and yield is most needed, to enable the producer and the public to decide as to the extent of the supply and the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting conditions, 100 is used by correspondents to represent a fair, seasonable, average vitality or growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or 10 per cent, is recorded 110; a decrease of 5 per cent is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men, who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is not pretended that these reports will exactly coincide with the official assessors' returns, but do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for the term of years will be found to closely approximate the assessors' returns.

J. K. DICKIRSON, Secretary.

NOTE—The county clerks of the following counties, viz., Boone, DuPage, Henderson, Iroquois, Lee and Livingston, furnished the tabulated schedules of agricultural statistics of their counties in accordance with the law, and computations for these counties are based on their reports.

CORN.

Northern Division.	Average, 1914.	Average yield in bushels.	Total yield in bushels.	Price per bushel.	*Value of crop.	Cost of production per acre.	Total cost of production.	Profit on crop.	Loss on crop.	Average Yield Per Acre in Bushels.													Quality compared with an average.

NAMES AND POSTOFFICE ADDRESSES
OF
CROP CORRESPONDENTS
STATE BOARD OF AGRICULTURE
FOR THE YEAR 1914
WITH DATE OF APPOINTMENT

ADAMS COUNTY—

- 1883. H. C. Cupp, Fall Creek.
- 1888. C. H. Rankin, Payson.
- 1904. A. R. Wallace, Jr., Camp Point.
- 1913. G. C. Dean, R. F. D., Adams.

ALEXANDER COUNTY—

- 1907. G. W. Childress, Olive Branch.
- 1909. J. L. King, Elco.
- 1909. Herman Bunch, McClure.

BOND COUNTY—

- 1885. W. H. Taylor, Greenville.
- 1898. L. E. Alexander, Reno.
- 1908. N. Cowen, Sorento.

BOONE COUNTY—

- 1899. O. S. Cohoon, Belvidere.
- 1909. Phil H. Sanford, Garden Prairie.
- 1911. C. W. Colton, 1419 Pearl st., Belvidere.

BROWN COUNTY—

- 1889. W. B. Rigg, Mt. Sterling.
- 1909. E. F. Byrns, Mt. Sterling, R. F. D.
- 1909. C. J. Davis, Timewell.
- 1909. J. M. Cronin, Mt. Sterling, R. F. D.

BUREAU COUNTY—

- 1897. O. W. Mason, Buda.
- 1907. D. D. Draper, New Bedford.
- 1907. Frank J. Nye, Princeton.
- 1907. John Johnson, Walnut, R. F. D. No. 4.
- 1907. E. B. Anthony, Tiskilwa.

CALHOUN COUNTY—

- 1881. M. A. Kamp, Kampsville.
- 1909. Wm. Franks, Batchtown.

CARROLL COUNTY—

- 1909. Wm. Phillips, Mt. Carroll.
- 1909. Geo. Lang, Chadwick.

CASS COUNTY—

- 1903. M. L. Crum, Virginia.

CHAMPAIGN COUNTY—

- 1908. Dr. F. M. Conkey, Homer.
- 1907. R. E. Chambers, Sadorus.
- 1907. Reuben Roughton, Rantoul.

CHRISTIAN COUNTY—

- 1878. O. S. Nash, Sharpsburg.
- 1904. J. Earl White, Morrisonville.
- 1908. C. W. Ebert, Owaneco.
- 1909. E. Dixon, Pana.

CLARK COUNTY—

- 1909. Jerry Ishler, Martinsville, R. R. No. 4.
- 1909. T. W. Richards, West York.
- 1914. J. Q. Snedeker, Marshall.

CLAY COUNTY—

- 1904. Leslie F. Brissenden, Flora.
- 1904. Jno. T. Campbell, Louisville.

CLINTON COUNTY—

- 1909. Jos. Heimann, Albers.
- 1901. Frank Bassler, Trenton.
- 1907. Theo. W. Timmerman, Breese.

COLES COUNTY—

- 1905. John W. Black, Humboldt.
- 1905. James A. Walker, Lerna.
- 1905. E. E. Boyer, Ashmore.
- 1909. Sam Rardin, Rardin.

COOK COUNTY—

- 1880. E. Wheeler, Arlington Heights.
- 1907. M. L. Staples, Palatine.
- 1907. John T. Cooper, Orland.

CRAWFORD COUNTY—

- 1882. William F. Wood, Oblong.
- 1897. W. M. Hart, Annapolis.
- 1900. Clinton Newlin, Hutsonville.

CUMBERLAND COUNTY—

- 1882. James M. Albin, Neoga.
- 1897. J. L. Mattoon, Greenup.
- 1914. Jesse Bowman, Toledo.

DEKALB COUNTY—

- 1913. Bert A. Bark, Sandwich.
- 1913. H. A. Parke, Genoa.
- 1914. Alvin Warren, Leland.

DE WITT COUNTY—

- 1897. C. E. Robb, Clinton.
- 1912. J. T. Sprague, Clinton.
- 1914. Homer Smith, Clinton.

DOUGLAS COUNTY—

- 1887. William Iles, R. F. D. No. 6, Tuscola.
- 1892. Perry N. Howe, R. F. D. No. 3, Tuscola.
- 1909. W. F. Goodspeed, Tuscola.
- 1910. John McCarty, Arcola, R. R. No. 5.

DU PAGE COUNTY—

- 1904. E. W. Plane, West Chicago.
- 1904. F. A. Rogers, Downers Grove.
- 1911. Geo. Keller, Naperville.

EDGAR COUNTY—

- 1892. C. D. Smith, Dudley, R. R. No. 12.
- 1904. F. L. Moss, Edgar.
- 1909. Winfield H. Scott, Chrisman, R. F. D. No. 26.

EDWARDS COUNTY—

- 1889. Ira Gould, Bone Gap.
- 1909. J. R. Doty, Albion.
- 1909. R. P. Roby, West Salem, R. F. D.

EFFINGHAM COUNTY—

- 1883. George W. Strong, Dietrich.
- 1883. T. J. Dunn, Dietrich, R. F. D. No. 2.
- 1902. Chas. Blakely, Altamont.

FAYETTE COUNTY—

- 1910. Carroll A. Davis, Farina.
- 1910. R. K. Hunt, Ramsey.
- 1910. W. T. Wilson, Brownstown.
- 1910. Chas. E. Keuchler, St. Elmo.

FORD COUNTY—

- 1879. S. J. LeFevre, Gibson City.
- 1892. W. B. Flora, Paxton.
- 1902. E. E. Bishop, Piper City.

FRANKLIN COUNTY—

- 1889. John A. Coleman, West Frankfort.
- 1907. M. V. Webb, Benton, R. R. No. 2.
- 1904. C. M. Upchurch, Ewing.
- 1905. J. E. Ice, West Frankfort.
- 1911. William Browning, Royalton.
- 1911. J. M. Willmore, W. Frankfort.

FULTON COUNTY—

- 1904. Abram Wilson, Fairview.
- 1908. Russell Fluke, Lewistown.

GALLATIN COUNTY—

- 1909. W. A. Wathen, Equality.
- 1909. J. C. Anderson, Omaha.
- 1914. Tom A. Logsdon, Shawneetown, R. F. D. No. 2.

GRUNDY COUNTY—

- 1910. Edgar S. Hoge, Morris.
- 1913. H. C. Daggett, Mazon.
- 1914. S. A. Trotter, Coal City.

HAMILTON COUNTY—

- 1889. J. D. Lockwood, McLeansboro.
- 1889. J. M. Weldin, McLeansboro.
- 1914. T. James Allen, Broughton.

HANCOCK COUNTY—

- 1877. E. J. Baxter, Nauvoo.
- 1885. C. M. McMillan, Carthage, R. No. 2.
- 1906. Geo. E. Campbell, LaHarpe, R. F. D. No. 2.
- 1910. Phil Richards, Ferris.

HARDIN COUNTY—

- 1892. John Gross, Elizabethtown, R. F. D. No. 3.
- 1914. M. L. Tyer, Cave-in-Rock.

HENDERSON COUNTY—

- 1908. E. C. Hutton, Terre Haute.
- 1914. Spurgeon Musgrove, Kirkwood.
- 1914. E. G. Lewis, Media.

HENRY COUNTY—

- 1908. D. S. Brown, Geneseo, R. R. No. 3.
- 1910. Oscar Hulting, Geneseo.
- 1911. Wm. F. Muir, Geneseo.
- 1910. Merton Ferguson, Geneseo.

IROQUOIS COUNTY—

- 1897. Herman Salmon, Milford.
- 1908. John Fry, Donovan, R. R. No. 2.
- 1914. Louis Wood, Sheldon.

JACKSON COUNTY—

- 1904. H. G. Easterly, Carbondale.
- 1904. Peter W. Griffith, Murphysboro.
- 1907. A. A. Williams, Ava.
- 1907. J. B. Williamson, Ava.

JASPER COUNTY—

- 1902. W. A. Kibler, Yale.
- 1906. G. A. Clark, Hunt City.
- 1910. R. D. K. Price, Newton.
- 1911. Arthur Clark, Yale, R. R. No. 3.

JEFFERSON COUNTY—

- 1897. A. J. Cook, Opdyke.
- 1907. E. B. O. Dayton, Belle Rive.
- 1912. O. A. Sheldon, Woodlawn.

JERSEY COUNTY—

- 1891. M. C. Stanley, Jerseyville.
- 1891. Wm. Lawler, Fieldon.
- 1891. James M. Segraves, Dow, R. F. D.
- 1909. S. H. Ruyle, Medora.

JO DAVIES COUNTY—

- 1885. Geo. W. Pepoon, Warren.
- 1904. W. G. Curtiss, Stockton.
- 1910. Joseph Frick, Galena.
- 1910. Joseph Varty, Apple River.
- 1910. James Hodgins, Scales Mound.
- 1910. Pierce Richards, Galena.
- 1910. R. B. White, Galena.

JOHNSON COUNTY—

- 1886. S. P. Thacker, Ozark, R. R. No. 1.
- 1894. Thos. B. Gore, Buncombe, R. F. D. No. 2.

KANE COUNTY—

- 1882. Daniel Whitney, Wasco.
- 1884. George E. Peck, Geneva.
- 1894. L. E. Bartlett, Elburn.
- 1910. C. E. Swan, Big Rock.

KANKAKEE COUNTY—

- 1885. Eugene Mathers, Momence.
- 1907. E. J. Griffin, Grant Park.
- 1907. David Price, Grant Park.

KENDALL COUNTY—

- 1896. C. C. Hoge, Newark.
- 1900. D. F. Palmer, Yorkville.
- 1907. J. D. Hollenback, Millington, R. R. No. 1.

KNOX COUNTY—

- 1885. J. F. Latimer, Abingdon.
- 1894. Joseph W. Miles, Gilson.
- 1907. F. D. Anderson, 828 N. Prairie st., Galesburg.
- 1914. B. E. Frankenburger, Rio.

LAKE COUNTY—

- 1889. J. A. Mason, Prairie View.
- 1907. E. E. Gilbert, Wauconda.
- 1914. J. C. James, Antioch.
- 1914. Emil A. Fiske, Lake Zurich.

LA SALLE COUNTY—

- 1883. C. A. Whitney, Lostant.
- 1884. W. B. Rockwood, Sheridan.
- 1910. H. N. Howard, Tonica.
- 1911. Fred T. Davis, Mendota.
